

Revive & Thrive Together

The Revive & Thrive effort is centered on fostering an equitable recovery that addresses the disproportionate impact of the pandemic on communities by developing and sustaining meaningful partnerships with those communities. The following programs were identified to be beneficial to the Lu Mien community. However, they were not communicated or made aware to the Lu Mien Community. Lu Mien American Association contracts with King County to provide a communication campaign to inform the Lu Mien Community of the various grants, programs, and resources made available by King County.
