

NOTICE TO THE PUBLIC – Reporting Violation

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Reporting Requirement(s) Not Met for CHRISTMOUNT CHRISTIAN ASSEMBLY

We are required to report the results of monitoring of your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. During the monthly compliance period for December 2024, we did not submit BACT samples for testing within the required timeframe.

Although public health was not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

What should I do?

There is nothing you need to do at this time. You do not need to boil your water or take other actions.

What is being done?

While we did not submit samples during the required period in December 2024, we are current on BACT and water quality is in good standing. We understand this may cause concern with the current state of the system therefore a copy of the latest test results can be provided upon request. We are no longer in violation at this time.
