Possibilities Without End SC

LIMITLESS
COMMUNITY
DEVELOPMENT

Services Offered

At LCD, we believe every family deserves access to care, clarity, and compassion.

- Local resources for parents of children and young adults with all disabilities (ages 0 - 28 years old)
- Enrollment in medical insurance, community programs, child care, and more
- Assistance with receiving Durable Medical Equipment (DME)
- Educational sessions for parents and families with community resources and peer support.
- Referrals to specialists, therapists, health services, and more
- Diaper pickup and delivery which included diapers and wipes

Metrics at a Glance

The demographics represented in this report reflect our commitment to meeting families where they are. By serving families across five South Carolina counties, partnering with 46 community organizations, and hosting 12 educational sessions, Possibilities Without End SC expanded access to vital resources, strengthened community connections, and empowered caregivers with the knowledge and support needed to advocate for their children and navigate disability services with confidence.

- **46** Community Partners
- **12 Self-Advocacy and Disability Education Classes** Held
- Non-emergency **medical transportation** provided to **61** participants
- **75** participants enrolled in emergency Medicaid

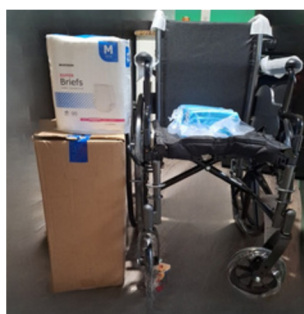

Race/Ethnicity:

The Bridge to Possibilities

For many of the families we serve, Possibilities Without End SC is more than a program, we are the bridge to possibilities they may not otherwise be able to access. Many parents face language barriers, limited transportation, or uncertainty about how to navigate complex systems to secure services for their children with disabilities. Through free bilingual support, personalized guidance, and trusted community partnerships, we helped families overcome these obstacles, connected them with essential resources, and advocated alongside them so every child had the opportunity to receive the care, services, and support they deserved. This resulted in more positive health outcomes and a higher quality of life for these children.

DME*

- Wheelchairs
- Strollers and adaptive strollers
- Walkers and gait trainers
- Bath chairs and shower benches
- Bedside commodes
- Portable ramps
- Hoyer lifts and patient lifts
- Orthotic braces and supports
- Adaptive seating systems
- Car seats and adaptive transportation equipment
- Mobility aids (canes and crutches)
- Incontinence supplies
- Communication devices and adaptive technology referrals
- Other medically necessary adaptive equipment based on each family's individual needs

Real Stories. Real Impact.

What sets Possibilities Without End SC apart is our commitment to walking alongside families throughout their journey. Rather than simply providing referrals, we built trusted relationships, offered personalized guidance, and remained a consistent source of support as families navigated healthcare, education, disability services, and community resources.

Magui V*****

Magui, a student who is blind and has cerebral palsy, was unable to safely ride the school bus because her wheelchair needed replacement brakes and safety straps. LCD worked with the family to obtain the necessary wheelchair parts and essential incontinence supplies, removing barriers that prevented her from attending school safely and comfortably while ensuring she could continue her education with the mobility, dignity, and support every child deserves.

Matthew C*****

Matthew, a child with autism and a speech delay, faced an unexpected barrier to receiving early intervention services due to new daycare enrollment requirements. LCD assisted his mother in navigating the situation, helping ensure Matthew could continue receiving the therapy services essential to his development while also providing the family with food and clothing to meet their immediate needs.

Wilfred Robinzon Cinto Gonzalez

Wilfred, a student with cerebral palsy, has been part of the Possibilities Without End SC program since the beginning. Throughout his journey, we were able to get him a custom wheelchair and build a wheelchair ramp at his home. We worked alongside his family to ensure he had access to the necessary adaptive equipment, specialized nutritional supplements, and incontinence supplies that support his health, mobility, and daily well-being. By helping meet these ongoing needs, Wilfred is able to leave home safely, attend school, participate in daily activities, and experience the same opportunities to learn, grow, and thrive as his peers.
