# Why Premier Management?

Rental properties are one of the most powerful ways to build long-term wealth—but only when they're managed with precision. The reality is that maintenance coordination, tenant communication, marketing vacancies, and day-to-day oversight can quickly consume your time and limit your returns. You don't need to manage it all yourself.

At Premier Management Solutions LLC, we combine hands-on expertise with cutting-edge technology to deliver exceptional results. We're proud to be trusted by property owners who demand transparency, efficiency, and performance.

What truly sets us apart is our use of advanced tools and AI-driven systems that many management companies don't offer—or don't know how to use. From smarter tenant screening and faster response times to data-driven decision-making, we leverage technology to operate more efficiently, reduce costs, and improve the overall tenant experience.

When you partner with Premier Management Solutions LLC, you're not just hiring a property manager—you're gaining a strategic partner committed to maximizing your cash flow, protecting your assets, and helping you scale with confidence. Let us handle the heavy lifting, while you enjoy stronger returns and total peace of mind

# Who Are We?

Our story began in 2000, when PSP Realty was founded as a small property management company overseeing fewer than 20 self-owned properties. In 2014, the company evolved into Indiana Property LLC, marking a new chapter under the leadership of Laura Wright, who stepped in as Director of Property Management.

In 2022, we expanded our services to support private property owners, allowing us to grow while continuing to maintain excellent Google reviews and high owner satisfaction. Our success is built on a simple principle: we understand property owners because we are investors ourselves. We know what owners expect—and what they need—to protect and grow their investments.

In 2026, Indiana Property LLC created a sister company, Premier Management Solutions LLC, to service properties and tenants that require a softer approach.

With a dedicated, experienced property management team, we focus on delivering the highest possible return on investment while providing responsive, reliable support. Our team is always accessible and equipped with a comprehensive suite of services that truly set us apart from other management companies.

Stephanie Colvin

Property Manager & Marketing Manager

I have been with Indiana Property LLC since 2024, and while property management was not initially my planned career path, I quickly discovered a natural aptitude for it. I helped with the inception of Premier Management Solutions LLC. I am highly organized, excel in customer service, and have a strong ability to develop and implement technology-driven processes that enhance efficiency across our operations.

I hold a degree in Business Management and am currently pursuing my real estate license certification. As part of the marketing responsibilities within my role, I am also a professional photographer, ensuring our properties are presented at their best through high-quality visual marketing.

While employed here, I have also successfully assisted with the startup of a sister company, contributing to its launch and operational development.

As the primary point of contact for our tenants, I focus on providing prompt, professional support while ensuring smooth communication and effective resolution of concerns.

Deb Johnson

Receptionist & Tenant Compliance

I have lived in Muncie my entire life and spent many years building my professional career. In April 2018, I retired from First Merchants Bank, closing a significant chapter in my career. In April 2022, I joined Indiana Property LLC on a short-term project, and as my contract was ending, I was asked to stay on as Receptionist and Tenant Compliance Manager.

Since then, I have thoroughly enjoyed being part of the team. Every day brings something new, and I love the variety my role provides—from assisting tenants and managing compliance to keeping operations running smoothly. It's a rewarding position that allows me to use my skills while learning and growing in the property management industry.

Kadence Aikin

I play a key role in keeping our operations running smoothly by filling in wherever needed, taking on a wide variety of responsibilities. From answering phones and providing excellent customer support to designing logos, creating direct mail campaigns, and contributing to marketing initiatives. I am also currently furthering my education at Ball State University.
