Victory

Model BLS3

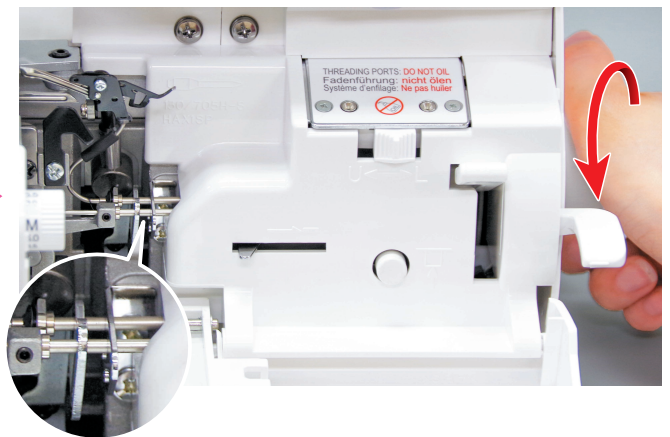

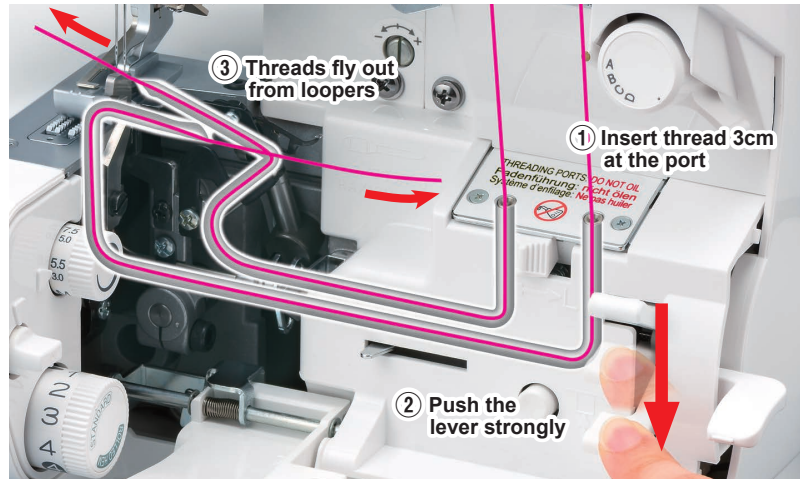

4-Thread Serger

Ready to declare victory over threading your serger? Look no further than the Baby Lock Victory. This advanced home serger includes Jet-Air Threading™, which threads the lower loopers with the touch of a lever and Automatic Thread Delivery™ to thread in any order. Plus, Victory's presser foot features a 6mm height that makes serging on thicker fabrics a breeze!

Jet-Air Threading

Threading a serger has never been easier than with the revolutionary Jet-Air Threading from Baby Lock. With just one touch of a lever, thread is sent through the tubular loopers. There are no thread guides, no struggling, and there's plenty of extra time of serge away!

Easy Engaging on Looper Threading

Realized simpler operation of looper threading.

Press the button once and turn Pully to connect the pipes. Now you are ready for Looper threading!

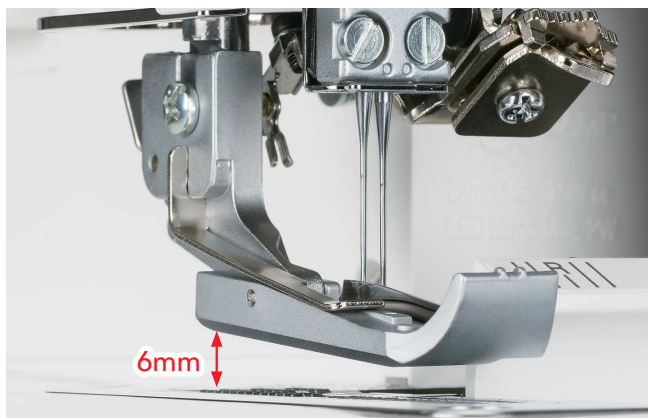

Automatic Thread Delivery (ATD)

Never worry about tension adjustment again. Enjoy perfectly balanced stitches regardless of the type of fabric you're using. The built-in stitch fingers actually move with the knife blade, adjusting the seam consecutively with the cutting width. ATD lets you thread your loopers in any order.

Differential Feed

Baby Lock took the differential feed mechanism to a new level by adding a single unit feed dog mechanism. This ensures stronger feeding as well as more consistent gathering on all fabrics.

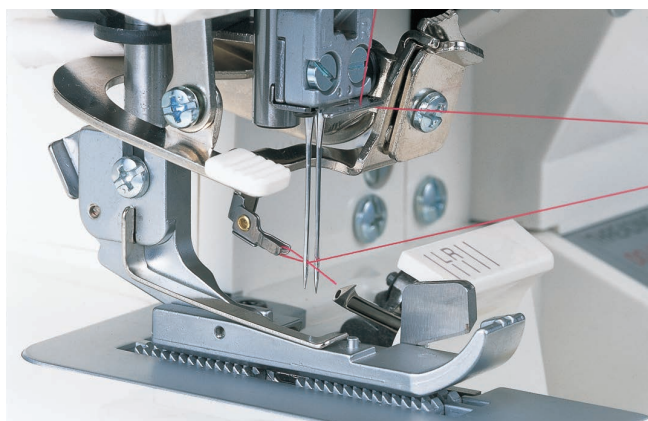

Presser Foot Height Up to 6mm

Presser foot height changed to 6.0mm. With this change, it became easier to set thick fabrics.

Pure Lighting with 2 LED Lights

Clearly see every stitch, fabric and thread color under two bright LED lights.

Needle Threading System

Baby Lock has put a lot of thought into threading a serger, but they haven't forgotten about the most important part- the needles. This system locks the needle threader in place for a quick and easy threading at the touch of a lever.

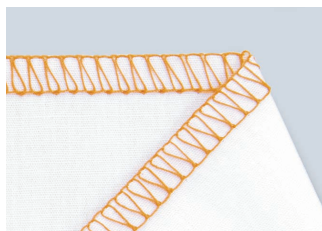

Dial Adjustable Stitch Length and Automatic Rolled Hem

Stitch length can be easily adjusted on the Victory using one dial. This dial includes an Automatic Rolled Hem setting that will retract the built-in stitch width finger for a rolled hem finish.

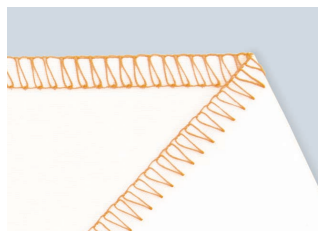

Variety of various seams.
