

NRMC Foundation Mission

The mission of the Nevada Regional Medical Center Foundation is to secure private gift support for the hospital; and to support the health care mission of the hospital.

Today, health care needs are greater than ever and Nevada Regional Medical Center proudly offers excellent medical services to meet those needs.

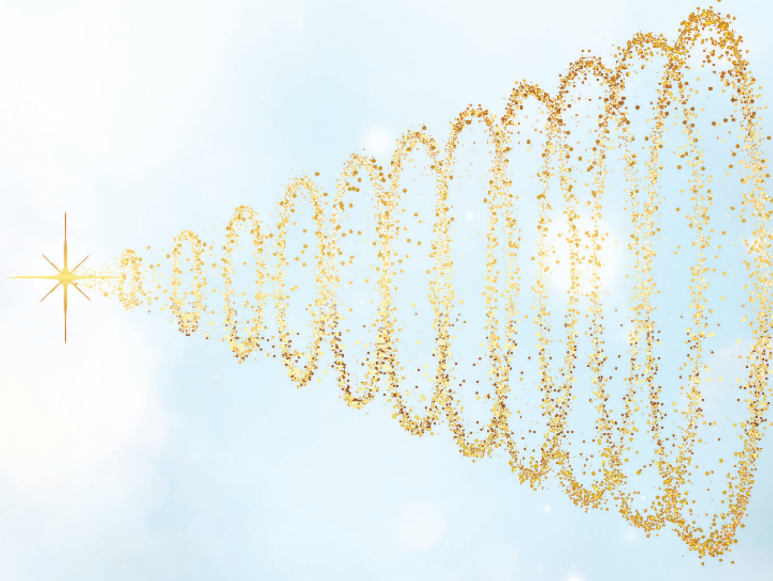

As you may know, the cost of providing quality health care continues to increase at rapid levels. NRMC strives to maintain the latest technology, as well as staying up-to-date with changing community needs and the continual demand to upgrade and improve equipment and services.

Generous gifts from donors like you provide the financial and moral support needed to continue our mission.

**Thank you for
your continued support.**
