Your Guide to Success

What to Expect from the FTV Graduate Program

The Ultimate eLearning Experience for Industry
Professionals

FTV GRADUATE PROGRAM

As someone who's spent years navigating the complexities of labor relations and payroll processing in the entertainment industry, I've seen firsthand how crucial and sometimes elusive it is to understand the intricacies of labor laws, union agreements, and compliance. I created the FTV Graduate Program to fill that gap, offering a clear, accessible, and practical approach to mastering these essential areas.

The FTV Graduate Program is the culmination of my experience: an eLearning platform built with industry-specific content that breaks down even the most challenging topics into manageable, engaging lessons. This program isn't just about theory; it's about giving you the tools, strategies, and practical knowledge you need to excel in your role. I designed the curriculum to walk learners through real-world applications, from handling union agreements and wage rates to understanding overtime laws and benefit structures.

My hope is that the FTV Graduate Program will empower you, simplify the learning process, and, most importantly, make compliance and labor agreement application something you can approach with confidence and clarity. This program is here to bridge the gap between complex regulations and the real-life demands of our industry, and I'm excited to share this journey with you.
