About Us

Prodigy BPC LLC empowers federal contractors to achieve compliance, reduce audit risk, and accelerate contract readiness across the entire acquisition lifecycle. Our team specializes in building and sustaining DCAA/DCMA-compliant business systems, supporting proposals and pricing strategies, and delivering audit-ready solutions. From earned value management and accounting compliance to property control and staff training, we provide practical, defensible approaches that withstand government scrutiny and drive long-term success.

Core Competencies

Proposal, Pricing & Estimation Support
Consistent, reliable and compliant pricing solutions

Accounting & Financial Compliance
Reactive and preventive controls, audit-ready system framework

Government Property Management
Responsible control and use of Government property

Earned Value Management System (EVMS)
Gap assessments, system implementations, validation support and project control expertise

Material Management & Accounting System (MMAS)
Enable effective material accounting, inventory control and valuation techniques, compliance and validation support

Material Requirements Planning (MRP) and Enterprise Resource Planning (ERP)
End-to-end business process support, organizational visibility and discipline, automation, streamlining and cross-functional integration

Prodigy BPC LLC helps federal contractors reduce audit risk, strengthen business systems, and accelerate contract readiness through practical, defensible, and regulation-aligned solutions that withstand government scrutiny and enable long-term growth and success.

Differentiators

Economically Disadvantaged Woman-Owned Small Business (EDWOSB) status

Extensive hands-on audit and advisory experience to reduce risk and ensure readiness

MRP/ERP integration system expertise across pricing, accounting, EVMS and other functional business disciplines
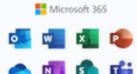

Proven success in system implementation, remediation, corrective actions, and formal system validation support

Flexible staff augmentation and targeted training to build organic capabilities and accelerate growth
