

GERMAN ROACH PREP CHECKLIST SHEET

Please follow this checklist to make sure that you are prepared for your GR service.

Good preparation prior to our service will lead to good results!

_____ Do **not use** any control measures on your own. Most store-bought products will either interfere with our treatment strategy or push them into difficult areas of the home to treat.

_____ Please remove everything from the **upper and lower cabinets** including underneath your sink. Take everything off the top of your **stove and refrigerator** and place them in the middle of the floor **in an adjacent room**. Cover all items with a sheet. Please **do not** leave these items in the kitchen. Your technician **will need room** to work to do their best job.

_____ Leave all kitchen appliances such as toasters, blenders, microwaves, coffeemakers, etc., on your counter. They will need to be inspected and treated if necessary.

_____ **Remove all items from your bathroom cabinets and underneath vanity, place items out of the way. It is perfectly fine to place your items in your bathtub or shower.**

_____ Thoroughly clean all **countertops only** with hot sudsy water **after** your service, leave the splash guard alone. **DO NOT CLEAN INSIDE TREATED CABINETS**. We prefer that you use a mild liquid dish soap rather than products containing ammonia or bleach, as these products are repellants and will interfere with our treatment.

_____ If you are seeing GR in your bedroom then please remove all items out of the dresser drawers and place it in a bag, box or totes and **put them out of the way**. Take everything off the closet floor so we can treat the baseboards.

_____ Please have children and pet toys put away. All pet food and water containers should be **removed and stored in plastic bags**.

_____ During warm weather months, please leave your air conditioning turned on. If you do not own an air conditioner, open all windows, and leave fans on for better ventilation.

Additional Notes:

1. Although we stand behind our services, due to the many variables that could lead to reinfestation, we **do not offer a warranty** on our German Roach services.
2. **Please be patient!** Eliminating a cockroach issue sometimes takes time depending on many variables. The best results are always tied in to how well the preparation was conducted.

HERE IS WHAT TO EXPECT AFTER YOUR SERVICE

WEEK 1 – Insect activity may appear as if the issue is getting worse. Hang in there for this is **normal behavior** after our treatment. As roaches are exposed to our products and begin to come out of hiding, they will be in various stages of dying. **This is a good thing!!!**

WEEK 2 – Insect activity will have settled down considerably. Dying insects may still be seen here and there. Your insect problem has **not yet** been eliminated. Don't be tempted to kill remaining insects with sprays of any kind. **Patients will be of utmost importance** at this stage of the process.

WEEK 3 – Insect activity will become rarer at this time. Expect to **still see** a few stragglers here and there. Most of these insects will be nymphs (baby roaches) as remaining eggs hatch and the young emerge to become exposed to our products.

WEEK 4 – Your roach issues should be resolved by weeks end. If for some reason you are still having an issue after the end of this week, call our office and we will determine what steps may be needed to end your issue.

DISCLAIMER:

Advanced Pest Solutions, Inc., reserves the right to refuse service if your technician determines that insufficient preparation had been done that could cause our treatment to fail. A **trip fee of \$65.00 will** be added to your bill to cover our cost of sending a technician to your door.

Advanced Pest Solutions, Inc., is at no time responsible for the damage or injury caused by the pests covered by this service.

Advanced Pest Solutions, Inc., is at no time responsible for damage caused to household items, painted walls, etc., due to our service. Your items may have to be picked up and inspected, furniture may need to be tipped over for examination, etc., which could lead to a damaged item. All care will be taken to respect your items.

THANK YOU FOR USING OUR SERVICE. WE APPRECIATE YOUR BUISNESS!!
