OUR USES AND DISCLOSURES

How do we typically use or share your health information? We typically use or share your health information in the following ways:

NOTICE OF PRIVACY PRACTICES

- **Treatment:** We can use your health information and share it with other professionals who are treating you (i.e., a doctor treating you for an injury asks another doctor about your overall health condition)
- **Payment:** We can use and share your health information to bill and get payment from health plans or other entities (i.e., we give information about you to your health insurance plan so it will pay for your services)
- **Healthcare Operations:** We can use and share your health information to run our practice, improve your care, and contact you when necessary (i.e., we use health information about you to manage your treatment and services)
- **Appointment Reminders, Treatment Alternatives, and Health-Related Benefits and Services:** We may use and disclose health information to contact you as a reminder that you have an appointment with us. We may use and disclose health information to tell you about treatment options or alternatives or health-related benefits and services that may be of interest to you. We also may make your health information available for you to access through a secure online patient portal (if applicable).
- **De-identified Health Information:** We may use your health information to create “de-identified” information that is not identifiable to any individual in accordance with the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”). Federal law does not restrict the use of patient health information once it becomes “de-identified” data in a manner provided under HIPAA so as to not disclose your identity. We may create data sets of de-identified information of many patients to share with outside persons and companies to discover methods and products to diagnose and treat diseases. We may also disclose your health information to a business associate for the purpose of creating de-identified information.
- **Limited Data Set:** We may use your health information to create a “limited data set” by removing certain identifying information. We may also disclose your health information to a business associate for the purpose of creating a limited data set. We may use and disclose a limited data set only for research, public health or healthcare operations purposes. We may create a limited data set of many patients to share with outside persons and companies to perform research, public health or healthcare operations. Persons or companies receiving the limited data set must sign an agreement to protect your health information.
- **Business Associates:** We may disclose your health information to our business associates who perform functions on our behalf or provide us with services, if the information is necessary for such functions or services. For example, we may use another company to perform billing services on our behalf. All of our business associates are obligated by law and under contract with us, to protect the privacy of your information and are not allowed to use or disclose any information other than as specified in our contract.

NOTICE OF PRIVACY PRACTICES

- **Participation in Health Information Exchanges (HIE):** We may share information about you with one or more HIEs that we may participate in. HIEs are secure electronic systems that allow health care providers to exchange patient information in order to better coordinate your care and to help us make more informed decisions regarding the best way to treat you. For example, if you were to visit another provider or hospital that also participates in the same HIE, we would receive treatment information from that provider. If you do not wish to participate in the HIE, we will provide you a HIE Opt-Out Form to complete. You can receive services from us even if you decide to opt out of participation in the HIE.
- **Incidental Uses and Disclosures:** Incidental uses and disclosures of information may occur. An incidental use or disclosure is a secondary use or disclosure that cannot reasonably be prevented, is limited in nature, and that occurs as a by-product of an otherwise permitted use or disclosure. However, such incidental uses or disclosure are permitted only to the extent that we have applied reasonable safeguards and do not disclose any more of your PHI than is necessary to accomplish the permitted use or disclosure. For example, disclosures about a patient within a physician's office that might be overheard by persons not involved in your care would be permitted.

How else can we use or share your health information? We are allowed or required to share your information in other ways – usually in ways that contribute to the public good, such as public health and research. We have to meet many conditions under applicable law before we can share your information for these purposes. For more information see: www.hhs.gov/ocr/privacy/hipaa/understanding/consumers/index.html

- **Respond to organ and tissue donation requests:** We can share health information about you with organ procurement organizations.

NOTICE OF PRIVACY PRACTICES

- **Work with a medical examiner or funeral director:** We can share health information with a coroner, medical examiner, or funeral director when an individual dies.

 - We can use or share health information about you:
 - For workers' compensation claims
 - For law enforcement purposes or with a law enforcement official

We will seek your **specific written authorization** for *at least* the following information unless the use or disclosure would be otherwise permitted or required by law as described above:

- **HIV/AIDS information:** In most cases, we will NOT release any of your HIV/AIDS related information unless your authorization expressly states that we may do so. There are certain purposes, however, for which we may be permitted to release your HIV/AIDS information without obtaining your express authorization. For example, we may release information regarding your HIV/AIDS status to your insurance company or HMO for purposes of receiving payment for services we provide to you. We may also release information regarding HIV/AIDS status of yourself and other patients where the information has been “de-identified” (meaning, the information cannot be used in any way to identify you).  - For your diagnosis and treatment;
 - For scientific research;
 - For management audits, financial audits, or program evaluation;

related to sexually transmitted diseases without obtaining your authorization only when permitted by law, including to the Department of Health, to your physician or a health authority, or to a prosecuting officer or court if you are being prosecuted under state law. Where necessary, your provider or a health authority may further disclose such information to protect your health and welfare, or the health and welfare of your family or the public.

Mental health information: We must obtain your specific written authorization prior to disclosing certain mental health information where required by state law. There may be cases where you see a mental health provider in a primary care setting and collaborative care is provided by the mental health provider and your primary care physician. In these situations, the mental health provider is not operating as a psychotherapist, and your mental health information may be stored within your primary care notes.

- **Substance Use Disorder Treatment Records (42 CFR Part 2)**
 - For purposes of this notice, “SUD Program” means a substance abuse disorder treatment program or provider subject to 42 CFR Part 2.
 - The Practice does not operate, participate in, or hold itself out as a SUD Program or SUD provider for purposes of Part 2. However, the Practice may receive substance use disorder treatment information about you from a SUD Program (“Part 2 Records”).
 - The Practice will not use or disclose Part 2 Records without your written consent except as expressly permitted by law (i.e., emergency). The Practice may rely on a valid consent that authorizes the use and disclosure of Part 2 records for treatment, payment, and healthcare operations, and may redisclose this information as permitted by HIPAA, provided that Part 2 Records may not be redisclosed for use in any civil, criminal, administrative, or legislative proceeding involving you.
 - The Practice may not disclose Part 2 Records for use in any civil, criminal, administrative, or legislative proceeding involving you unless (i) you provide written consent that specifically authorizes such disclosure or (ii) a valid court order or subpoena compelling disclosure is issued in compliance with Part 2, after both you and the Practice have been provided notice and an opportunity to be heard.
 - Any disclosure of Part 2 Records permitted will include a statement that further use or redisclosure is prohibited unless expressly permitted by applicable law. You may revoke your consent at any time, except to the extent the Practice has already relied on such consent.
- **Genetic information:** We must obtain your specific written authorization prior to obtaining or retaining your genetic information, or using or disclosing your genetic information for treatment, payment, or health care operations purposes. For example, before conducting any genetic testing, we will ask for your written authorization to conduct such testing. We may

use or disclose your genetic information, or the genetic information of your child, without your written authorization only where it would be permitted by law, such as for paternity tests for court proceedings, anonymous research, newborn screening requirements, identifying a body, for the purposes of criminal investigations or otherwise authorized by a court order.

- **Information related to treatment of a minor in special circumstances:** If you are a minor who sought certain types of treatment from us (to which treatment you were able to consent on your own behalf), such as treatment related to your pregnancy or treatment related to your child, or a sexually transmitted disease, we must obtain your specific written authorization prior to disclosing any of your PHI related to such treatment to another person, including your parent(s) or guardian(s), unless we would otherwise be permitted by law to do so.
- **Marketing Activities:** We must obtain your specific written authorization to use any of your PHI to mail or email you marketing materials. However, we may provide you with marketing materials face-to-face without obtaining authorization, in addition to communicating with you about services or products that relate to your treatment, case management, or care coordination, alternative treatments, therapies, providers or care settings. If you do provide us with your written authorization to send you marketing materials, you have a right to opt-out of receiving these communications in the future and may do so at any time.
