## Item 2 Educational Background and Business Experience

Your Financial Adviser: **Gregory Cyril Staub, CFA**

Year of Birth: 1957

Education:

- Temple University, BA Biology, 1979
- Tulane University, PhD Biology, 1983

Business Background:

- Planning Strategies, Inc. d/b/a PSI Capital Management ("PSICM"), Chief Investment Officer (CIO)/Investment Adviser Representative (IAR), April 2018 - Present
- Pilot Capital Management, Inc., President, December 1991 - March 2018

**The Chartered Financial Analyst (CFA®)** and Certification Mark (collectively, the "CFA marks") are professional certification marks granted in the United States and internationally by the CFA Institute.

The Chartered Financial Analyst (CFA) charter is a globally respected, graduate-level investment credential established in 1962 and awarded by CFA Institute - the largest global association of investment professionals.

There are currently more than 90,000 CFA charter holders working in 135 countries. To earn the CFA charter, candidates must: 1) pass three sequential, six-hour examinations; 2) have at least four years of qualified professional investment experience; 3) join CFA Institute as members; and 4) commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

*High Ethical Standards* - The CFA Institute Code of Ethics and Standards of Professional Conduct, enforced through an active professional conduct program, require CFA charter holders to:

- Place their clients' interests ahead of their own
- Maintain independence and objectivity
- Act with integrity
- Maintain and improve their professional competence
- Disclose conflicts of interest and legal matters

*Global Recognition* - Passing the three CFA exams is a difficult feat that requires extensive study (successful candidates report spending an average of 300 hours of study per level). Earning the CFA charter demonstrates mastery of many of the advanced skills needed for investment analysis and decision making in today's quickly evolving global financial industry. As a result, employers and clients are increasingly seeking CFA charter holders-often making the charter a prerequisite for employment. Additionally, regulatory bodies in 19 countries recognize the CFA charter as a proxy for meeting certain licensing requirements, and more than 125 colleges and universities around the world have incorporated a majority of the CFA Program curriculum into their own finance courses.

*Comprehensive and Current Knowledge* - The CFA Program curriculum provides a comprehensive framework of knowledge for investment decision making and is firmly grounded in the knowledge and skills used every day in the investment profession. The three levels of the CFA Program test a proficiency with a wide range of fundamental and advanced investment topics, including ethical and professional standards, fixed-income and equity analysis, alternative and derivative investments, economics, financial reporting standards, portfolio management, and wealth planning. The CFA Program curriculum is updated every year by experts from around the world to ensure that candidates learn the most relevant and practical new tools, ideas, and investment and wealth management skills to reflect the dynamic and complex nature of the profession.
