Scott at CR went way over the top to help us find a counter top material for our bathroom remodel. He talked with me on the phone and took the time to locate some remnant pieces that matched photos I sent. Saved us hours of going place to place to try to find something. Sent me pictures of possible matches and gave us a really fair price. I am so pleased. Great service here for sure.

Juan and his team are amazing. I requested some help cutting a hole in our granite countertop, years later, well-after the job was finished. Dario and his team came out within two days and cut the hole for us. Very professional, clean, responsive. High quality work. Thank you so much guys!

Good quality of work, timely and respectful installers. Had an issue about a year post installation with some cracking grout to which the owner Juan promptly sent a crew out within days to remedy. I've used them twice now and would not hesitate to use them again.
