HOW TO REGISTER

WellnessLiving Online Registration

KIIH uses WellnessLiving for program registration, scheduling, and account management.

Please follow these steps to ensure your player is registered correctly.

STEP 1 — CREATE YOUR PARENT ACCOUNT

Create a WellnessLiving account using the parent or legal guardian's information. This will be your primary family account.

If you already have a KIIH WellnessLiving account, simply sign in.

STEP 2 — ADD YOUR PLAYER

Once logged in, add your child as a Family Member and create their individual student profile.

Make sure to enter your player's correct name, date of birth, and required information.

STEP 3 — REGISTER YOUR PLAYER

Select the desired KIIH program and register your child under their individual player profile, NOT the parent's profile.

This ensures your player is correctly identified, assigned to the appropriate program, and included on our attendance roster.

STEP 4 — REGISTERING MULTIPLE CHILDREN

If registering siblings, create a separate family member/student profile for each child.

Each player must be registered individually under their own profile. All family members can remain connected to your primary parent account.

IMPORTANT REGISTRATION REMINDER

Parents manage the account. Players attend the programs.

Please do not register yourself for a skating or hockey program intended for your child.

Each player must have their own profile with accurate information.

Need assistance? Contact KIIH before completing your registration if you are unsure how to add a family member or select the correct player.
