

2020 Reserve Cabernet Sauvignon

100% Cabernet Sauvignon

Adelaida

14.64% ABV pH 3.70 TA 5.7g/L

Vineyard

2020 was a warm year with high heat spikes in August and September. The Winemakers monitored the hot spells and increased watering to maintain fruit quality. 100% of the Cabernet Sauvignon grapes come from our Adelaida Vineyard from the best block or blocks of grapes that year. With the mix of clay and calcareous soil in the vineyard, there will be pronounced acidity, full tannins, and great structure in the wine.

Winemaking

Fermentation takes place in stainless steel tanks, followed by 22 months of aging in 100% new French oak barrels. For the Reserve Cabernet, we select the highest quality barrels to enhance both luxury and complexity. 570 cases of this vintage were produced.

Tasting Notes

This 2020 Cabernet Sauvignon opens with dense aromas of black fruit, chocolate, and a hint of baking spice. The intense yet balanced wine continues with long-lasting notes of black cherry, cocoa, and graphite on the palate. Full-bodied and structured for aging, this wine will be best enjoyed between 2026 and 2045.
