

PEACE RIVER botanical & sculpture GARDENS

5827 Riverside Drive • Punta Gorda, FL

Our History

In 2006, Roger and Linda Tetrault began with almost 30 acres of uplands and wetlands. Adjacent to their home, they conceived the idea of creating botanical gardens with world-class sculptures and formed the Tetrault Family Foundation to fund and develop the infrastructure for this project.

In 2008, Peace River Botanical & Sculpture Gardens, Inc., a 501(c)3 non-profit organization, was formed. We opened this beautiful, cultural facility to the public in the fall of 2017.

We integrate Florida's natural landscape with more than 4500 plants, trees, and bamboos to become one of the largest botanical and sculpture gardens in the State. Our property encompasses 15 acres of land and another 10 acres of waterways, marshland and heritage mangroves. Our collections are always growing so there is more to see each and every time you visit!

We invite you to join our sanctuary of art, nature, education, and culture by becoming a member and visiting often! Ask one of our staff about the ambitious future expansion plans envisioned by founders, visit our Gift Shop to find hand-crafted treasures by local artists, make your way through the butterfly house to see Florida natives up close, and *stop by the plant sale area for unique additions to your own garden!*
