Wash Nets

Commercial Grade - Heavy Duty

NLE Washnets

Perfect for keeping items separated while still enjoying the efficiency of a full wash load.

No more worries about items getting lost, and forget about sorting!

Crafted from incredibly durable 240g/m² polyester Knit material. The sizes displayed on the right are our most sought-after options, featuring a convenient ziptop enclosure and an I.D. tag. However, we can accommodate most sizes you need, offering your choice of Zip (Z), Velcro (V), Toggle Drawstring (T), or an open top (O) for your convenience.

Experience the ease of laundry like never before!"

Garment & Textile Labelling Solutions

Ideal for any environment where simple, fast identification of garments, linen or any other textile item is required.

- Instant printing from one label or 1000's
- Print your own labels on-site
- No minimum quantities
- No waiting for labels to be posted
- Once printed, heat seal the label to the garment
- The printer is set up with its own keyboard as a standalone unit, or it can be integrated with a computer
- Our labels have an adhesive back and can stick to hard services
- Made in Australia

Kit Includes

- Printer
- Rhinehart .22 Heat Press
- Keyboard
- 1x Nomex garment protector
- 1 x Ink roll
- Setup & staff training
- 1 x Roll Hybrid Stretchy Labels 1700

Our New Thermal Printer

Benefits:

- Ultra-compact Size
- Rugged construction
- Easy to use
- Fast & efficient
- Silent operation
- Easy to reload

Complete Package Order Code:FFLS

Labels

NLE's Unique Hybrid labels can stretch

and printed using a thermal printer fitted with a specially impregnated laundry thermal ink. Once printed, labels can

then be heat-sealed onto linen using a heat seal machine. The labels have an adhesive backing, allowing them to stay in the correct position without edge curling!

- Fast and efficient

Complete Package
Order Code:FFLS

RHINEHART·22 Heatsealer.

This **European-made** heatsealer is ideal for label or patching applications. The heat press has fully digital time and temperature controls and features auto-release technology. The lockdown head auto-releases after the preset time is reached

- Audible timer sounds and auto release occurs when the press cycle is complete
- LED display screen indicates time and temperature
- Robust construction
- Voltage: 230 volt AC, Single phase, 10amp, standard Australian, power plug
- Auto safety cut-off after period of no use
- Durable silicon pad

Note:

A Heatsealer Press is the only way to guarantee the permanent adhesion of labels.
