ShooterSlicker® S2bRF

Designed for cameras using the Wave / Data video add-ons, these raincovers offer you a logical design and easy access to the equipment. Let us know what your antenna configuration is and we will build you a raincover to fit it exactly.

Features: fitted antenna sleeve, rear velcro access to battery, window option for meters

on side or rear of cover, neoprene around the eye piece for comfort, all sewn seams sealed, audio sleeve has a waterproof zipper for easy access. Velcro across the bottom to let you close it up when on the tripod, Rubber handle grip option, Velcro or Neoprene available on the front lens.

Available in 5 Colors

A MESSAGE YOU WANT TO READ

IT IS CRITICAL THAT YOU NOTICE HOW THESE COVERS ARE FOLDED, IE: HOW THEY ROLL UP, AS YOU UNROLL THEM FOR THE FIRST TIME!

IF YOU MAKE A LITTLE EFFORT TO SEE HOW SIMPLY THEY FOLD UP (IN THIRDS) AND ROLL UP, THEN USE THE FASTENING VELCRO STRIP TO SECURE THE COVER, YOU'LL FIND OUT THE PLASTIC WINDOWS AND THE COVER ITSELF WILL LAST A LONG TIME.

PLEASE NOTE: There is a small piece of removable loop velcro with adhesive on the cover, top front lens area (hook) velcro.

You may want to put it on your lens shade to keep the cover from getting in your shot if it gets windy.

PLEASE DRY THE COVER THOROUGHLY, IE: DO NOT PUT IT AWAY WET. IT SHOULD NOT MILDEW BECAUSE OF A SPECIAL COATING ON THE FABRIC, BUT IT WILL STAY WET AND THE NEXT TIME YOU WANT TO PUT THE COVER ON YOUR CAMERA, IT WILL GET WET FROM THE LEFTOVER MOISTURE.

THESE CAN BE "TUMBLE DRIED" AT A LOW HEAT. (THE ONLY PARTS TO WORRY ABOUT ARE: THE CLEAR PLASTIC WINDOWS CAN MELT, AND THE "IRON-ON" SEAM SEALANT CAN SEPARATE FROM THE SEAM). ANY PROBLEMS, CALL ME AND WE WILL BE HAPPY TO HELP FIX WHATEVER MAY OCCUR TO YOUR SHOOTERSLICER® RAINCOVER.

Thank you for reading this and if you have any questions, call Susan @ 310-821-5659

Lay it out, fold to the left with the eyepiece to the rear, let the velcro strap be your middle guide,

Lay it out flat

Fold in thirds from back to front

Then roll it up like a burrito and use the velcro tie to secure it
