

About Conference

The International Conference on Computing and Smart Systems (ICCSC) aims to provide a unique forum for academicians, industry experts, researchers, developers, and students working in Networks, Computer Science, and Artificial Intelligence to exchange knowledge, experiences, and findings by showcasing new results and presenting emerging directions in ICCSC. The conference theme is 'AI-powered Computing' for advancing humanity.

The conference is hosted by SRM Institute of Science and Technology Tiruchirappalli, with USS as the technical co-sponsor. All accepted and presented papers that meet USS quality standards will be included in the conference proceedings, submitted for inclusion in the USS Digital Library, and indexed in CNKI (China National Knowledge Infrastructure) and the Chinese Science Citation Database (CSCD). The inaugural edition will cover topics such as Blockchain Technologies, Big Data, Distributed Computing, Networks and Security, Smart Systems, Internet Technology, Internet of Things, and AI applications in Computing.
