

Report on ICCAST 2025 – VMRF Salem

Date: 24th July 2025

Venue: Vinayaka Mission Research Foundation (VMRF), Salem

Department: Anaesthesia Technology

Institution: College of Allied and Health Sciences – FMHS, SRMIST TRC

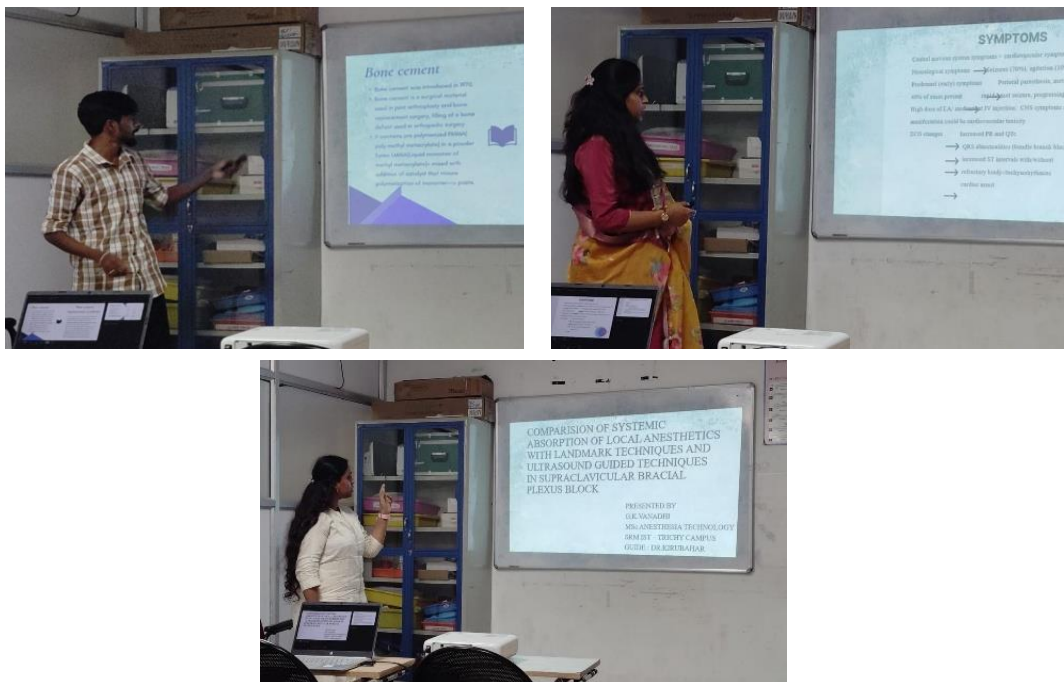

The Postgraduate students of Anaesthesia Technology from our institution actively participated in the International Conference on Clinical Anaesthesia and Surgical Technologies (ICCAST 2025), organized by Vinayaka Mission Research Foundation (VMRF), Salem on 24th July 2025.

The conference served as an excellent platform for students and professionals from various allied health disciplines to exchange knowledge, present research, and engage in academic discussions on recent advancements in clinical and applied sciences. Our PG students enthusiastically attended multiple scientific sessions and showcased their ideas through oral presentations. This participation not only provided an enriching academic experience but also fostered confidence and motivation among the students to pursue research and innovation in the field of Anaesthesia Technology.

Highlights:

- A total of 11 PG students from the Anaesthesia Technology program took part.
- Students presented papers on emerging topics such as:
 - *Advancements in Regional Anaesthesia Techniques*
 - *Anaesthetic Management in High-Risk Surgical Patients*
 - *Role of Simulation in Anaesthesia Training*
- The presentations were well-received by the expert panel, and students gained valuable feedback and exposure.
- The students also interacted with renowned speakers and peers from various institutions, enhancing their academic and professional perspectives.

We congratulate all the students for their active involvement and commend their dedication towards academic excellence.
