time of day

Detachable
and portable

Convenient
packaging

Filled by
your
pharmacist

Frequently Asked Questions

- What is the cost?
 - We charge \$28 for the 28-day supply in addition to any copays required by insurance.
- What happens if a medication changes?
 - Because the packages come with extensive descriptions of the medications included, medication changes are easily rectified through communication with the pharmacist, patient, and/or responsible party.
- Can you package supplements?
 - Yes! Although there is a \$3-5 fee per supplement because insurance does not cover.
- What about PRN medications?
 - They will be packaged in a separate card or bottled like normal, per patient request.
