

PERFORMA ENTERPRISE™

ORGANIZE AND ARCHIVE

What is **PerForma Enterprise**? PerForma Enterprise is a technology tool designed to organize, retrieve, archive and interface documents securely within your dealership. No more filing cabinets or bank boxes taking up space. With PerForma Enterprise your documents are all in the cloud, safe, secure and accessible anytime.

Efficient and cost effective electronic file archiving

PerForma Enterprise saves time and money by allowing you to:

1 Quickly Search Documents
Optical Character Recognition (OCR) allows for full text and keyword search allowing you to find electronic documents with lightning speed.

5 Reclaim Storage Space
No longer have to use a closet or build a shed to stash your boxes of paperwork.

2 Organize your Files
By archiving your secure documents you will create a structured file environment that can be quickly retrieved from any location.

6 Proactively Generate Statements
AR Report pulls together your customers' statements with their associated invoices, allowing you to print and send via USPS or email.

3 Scan Documents
Transform the papers that your office handles daily and turn them into electronic documents accessible to your entire organization.

7 Reconcile Financials Effeciently
FIN Report provides an easy to read format allowing customers to reconcile their invoices with their John Deere Financial statements easily.

4 Simplify Check Signing
AP Check verifies your check run and then places the signature(s) on the check freeing up your valuable time.

8 Keep Documents Safe and Secure
With electronic storage and backups you will NEVER lose your documents again.

"Performa Enterprise has helped our business by making it easier to access and view our EQUIP invoices and prior A/R statements. It saves us a lot of time because it's now an automated process."

- George Ortiz, Thomason Tractor
