

Founder's Pro

The nanoliquid carrier for enhancing organic crop inputs

Humic Acid

Founder's Pro is an OMRI listed product that offers nanoliquid technology for enhancing plant uptake of organic crop inputs.

Nanoliquid technology is a patented and environmentally sustainable crop solution for improving plant uptake of agricultural inputs.

NanoStress benefits:

- OMRI Listed
- Enhances organic crop inputs
- Unique carrier technology
- Highly compatible with most products
- Non toxic and environmentally friendly

Mixing guidelines:

Add the liquid fertilizer to the tank then add **4 oz/ac Founder's Pro**.

1 Add water and water conditioners

+

2 Add crop input

+

3 Add nanoliquid product

+

4 Add surfactant (if needed)

THE ANATOMY OF A Founder's Pro Particle

Nanoliquid benefits:

- Improves plant uptake
- Highly compatible with ag inputs
- Clean, easy handling
- Safe for the environment
- Proven performance

A **nanoparticle** is between 10-100 nanometers (nm) in size, providing room for thousands of nutrient ions.

Ions of the crop input solution are attracted to nanoparticles, filling the empty space and also forming an outer layer of ions around the nanoparticle. Loaded particles are now ready for effective delivery.
