Police Building Construction Update

We're excited to announce that our project officially kicked off with the issuance of the construction permit on October 20! The concrete foundation walls have been formed and poured, and the footing for the front lobby addition is also complete.

Right now, our HVAC team is busy installing vents and piping, while the plumbing crew is cutting into the slab for new fixture locations.

The sallyport area has been backfilled and compacted, preparing for an efficient in-floor heating system.

We appreciate the community's support as we work towards completing this important facility. Stay tuned for more updates as the project progresses.
