- Log grab
- Bulk bucket
- Extended arms (higher lift)
- Wind screen shield

LOVOL FL936H

WHEEL LOADER

Heaviest Construction with the latest technology adapted for lower fatigue stress and higher breakout force putting Lovol at the top of the game when it comes to efficiency with less down time and repair costs.

Luxury air conditioned sealed and sound proofed cab, air suspension seat with arm rests, excellent audio system and maximum visibility yet simple and easy to operate. This puts Lovol at the forefront of operator comfort for those long hours of machine operation due to less down time!

Lovol machines come with engines that have been tested and proven over many years for their power and efficiency. The FL936H is fitted with a mechanical fuel pump Deutz Weichai engine so **No ECU** (Electronic Computer Unit) making it reliable and cost effective for servicing and repairs. Extra large radiator fitted and problematic electronics eliminated for hassle free engine running and cost savings

Powershift transmission and torque converter, tried and tested thousands of times with reliability seldom matched. We develop our machines with toughness in mind so our customers have less down time and less costs.

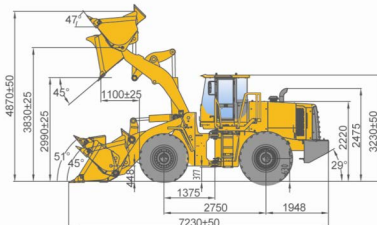

Lovol axles and air over hydraulic disc brakes making the Lovol machines a must have for anyone in the know! With simple quick change pads, no oil contamination, accessible for cost saving and visible for knowing when replacement is required.

Modern and plush rounded design, no sharp edges and up to date LED lighting. Safety guarding to International standards. Durable metal panels, not plastic, for toughness with large one piece hinged openings for fast and easy access.

FL936H | Specifications
