

Chatting During Live Events on YouTube

This is our best advice!

Use a computer if you can. Most people do NOT have issues chatting on their computers but they DO have issues on phones or Ipad.

And you need to know:

- You must have a Google / gmail account (and be logged in)
- You must have a YouTube channel.*
- If you are using a mobile device or Ipad use the **YouTube app** to watch live streams. Everything works more smoothly that way.

*Setting up a channel is very simple. It is basically entering your name. Go to www.youtube.com and click on your avatar - top right corner. You should see an option to set up a channel.

If you already have a channel, you will see a button under your picture that says 'View your channel.' If you do, you're all set!

Note #1: You DO need to be in the chat to be eligible for a prize

Note #2: We won't be able to fix everyone's chatting issues. Thanks for understanding!
