

Klondike Derby

—It's About a Race!

A Klondike Derby is a race with 2-4 Dog sleds with wheels. A Patrol of 6-8 work as a team to compete with other teams for Gold Nuggets. Kids pull there sled with everything they need for different stations that will test their skill, time, leadership, teamwork and unity of Spirit as they compete. Each team is given a map & compass indicating stations they will compete at.

2 Adults at each station will grade and reward nuggets as they evaluate the teams. The team finishing with the best times will receive additional Gold and the team with the most Gold wins!

This is a great event to hone efficiency of Patrol & individual camp skills through competition.
