Testicular Prosthesis

High technology
and maximum safety

Promedon
— People + Innovation

High Technology

The state-of-the-art silicone elastomer used to manufacture the prosthesis made the solid design resembling a natural consistency possible thanks to the low-degree hardness of the material.

Testicular Prosthesis

Maximum Safety

N&S can be easily implanted, causing no irritation and thus guaranteeing a safe surgical procedure, even when punctures occur. Moreover, no leakages occur due to its solid design.

Ordering Information

Ref.	A [mm]	B [mm]
T-Small	31	23
T-Medium	37	28
T-Large	42	32
T-XLarge	47	34
