

Year 7	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	Introduction to Geography and Map skills Latitude and longitude and grid references <i>Link to maths- coordinates</i>	Weather, climate and extreme events. <i>Link to science and the water cycle, global warming</i>	World of Work changing industry and employment across the world, Globalisation <i>Link to History and the Industrial revolution.</i>	Rivers and Flooding Water cycle and environmental management <i>Link to Science Water cycle</i>	Fieldwork, Recording and presenting information. <i>Link to maths presenting data and charts</i>	Africa Cultures and ecosystems. Poverty and tourism.

Year 8	Half Term 1	Half Term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	Population and Migration Reasons for population changes. Reasons why people migrate. <i>Link to History Medicine</i> <i>RE – different cultures and religion</i>	Desert and Polar Environments Features of deserts and its climate. Plant and animal adaptations. Climate change. Glaciation. <i>Link to Science – adaptations, food chains and global warming</i> <i>Link to Maths – Graphical skills</i>	The Middle East The countries of the Middle East. Climate. Tourism. Resources and conflict <i>Link to History – origins of the country.</i> <i>Link to Science food chains and global warming</i>	Tectonic Hazards Plate tectonics. Earthquakes and volcanoes <i>Link to science</i>	Fieldwork <i>Link to maths presenting data and charts</i>	India Investigates the physical and human characteristics of India. <i>Link to RE – different faiths and traditions.</i> <i>History – The British Empire</i>

YEAR 9	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	Development International development. Global development and aid. Global cities.	Coasts Coastal processes and landforms. Coastal erosion and how we manage the coast. <i>Link to Science – Weathering processes.</i>	Climate Change and Energy How human activity has influenced natural systems. Non-renewable and renewable energy. <i>Link to Science (energy)</i>	Russia Investigates the physical and human characteristics of Russia. <i>Link to RE and History – different faiths, traditions, superpowers and the Cold War.</i>	Mini Fieldwork Assignment Fieldwork skills. <i>Link to maths presenting data and charts</i>	All About Asia Investigates the physical and human characteristics of Asia. <i>Link to RE and History – different faiths, traditions, conflicts through history.</i> <i>Science – global warming</i>

YEAR 10	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	GCSE - AQA Paper 1 Natural Hazards <i>Tectonic hazards</i> <i>Atmospheric hazards</i>	GCSE – AQA Paper 1 Natural Hazards Climate change	GCSE – AQA Paper 2 Urban Issues & Challenges <i>Urbanisation & megacities</i> <i>Case study of NEE: Nigeria, Lagos</i> <i>Case study of HIC – London</i> <i>Sustainability</i>	GCSE - AQA Paper 1 Physical Environments - Coastal processes & landforms - Coastal management	GCSE - AQA Paper 1 Physical Environments - River processes & landforms - River management	GCSE - AQA Paper 3 Fieldwork - Physical fieldwork – Walton (Coastal management) - Human fieldwork – Stratford (Regeneration)

YEAR 11	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	GCSE - AQA Paper 2 Changing Economic World <i>Development</i>	GCSE – AQA Paper 1 The Living World <i>Ecosystems</i>	GCSE - AQA Paper 2 The Challenge of Resource Management	GCSE – AQA Revision	EXAMS	EXAMS

	- Nigeria - UK	- Tropical Rainforests - Hot Deserts	- Resources in the UK (Water, food, energy). - Water resources	- Living With the Physical Environment (Paper 1) - Challenges In the Human Environment (Paper 2) - Geographical Applications (Paper 3)		
--	---	---	---	--	--	--

YEAR 12	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	A-Level – Edexcel Human – Globalisation - EQ1 – What are the causes of globalisation? - EQ2 – What are the impacts of globalisation? Physical – Tectonic Processes and Hazards - EQ1 – Why are some locations more at risk from tectonic hazards? - EQ2 – Why do some tectonic hazards develop into disasters?	A-Level – Edexcel Human – Globalisation - EQ3 – What are the consequences of globalisation? Physical – Tectonic Processes and Hazards - EQ3 – How successful is the management of tectonic hazards and disasters?	A-Level – Edexcel Human – Regenerating Places - EQ1 – How and why do places vary? In depth study of local and contrasting place. - EQ2 – Why is regeneration needed? Physical – Coastal Landscapes and Change - EQ1 – Why are coastal landscapes different and what processes cause these differences? - EQ2 – How do characteristic coastal landforms contribute to coastal landscapes?	A-Level – Edexcel Human – Regenerating Places - EQ3 – How is regeneration managed? - EQ4 – How successful is regeneration? Physical – Coastal Landscapes and Change - EQ3 – How do coastal erosion and sea level change alter the physical characteristics of coastlines and increase risk? - EQ4 – How can coastlines be managed to meet the needs of all players?	A-Level – Edexcel NEA - Fieldwork - Coursework	A-Level – Edexcel NEA - Fieldwork - Coursework

YEAR 13	Half term 1	Half term 2	Half term 3	Half term 4	Half term 5	Half term 6
Geography	A-Level – Edexcel Human – Superpowers - EQ1 – What are superpowers and how have they changed over time? - EQ2 – What are the impacts of superpowers?	A-Level – Edexcel Human – Globalisation EQ3 – What spheres of influence are contested and what are the implications of this? Physical – The Water Cycle and Water Insecurity	A-Level – Edexcel Human – Health & Human Rights - EQ1 – What is development & why does it vary? - EQ2 – Why do human rights vary from place to place?	A-Level – Edexcel Human – Health & Human Rights - EQ3 – How are human rights used from political and military intervention? - EQ4 – What are the outcomes of	EXAMS	EXAMS

	Physical – The Water Cycle and Water Insecurity - EQ1 – What are the processes operating within the hydrological cycle from global to local scale? - EQ2 – What factors influence the hydrological system over short- and long-term timescales.	EQ3 – How does water insecurity occur and why is it becoming such a global issue for the 21st century?	Physical – The Carbon Cycle and Energy Security - EQ1 – How does the carbon cycle operate to maintain planetary health? - EQ2 – What are the consequences for people and the environment of our increasing demand for energy?	<i>geopolitical interventions?</i> Physical – The Carbon Cycle and Energy Security EQ3 – How are the carbon and water cycles linked to the global climate system?
