

FAQs

What are the costs of services?

Services are billed to insurance but there is no cost to the family (no co-pays, deductibles, out of pocket expenses)

How do I book appointments?

Same day and scheduled appointments are available to enrolled students and can be scheduled by calling or visiting the SBHC at your child's school.

What do I need to do to enroll my child?

All students under the age of 18 must have a parent permission form completed and signed by the parent/guardian to receive services in the CS-HHC SBHC.

Lifestyles*

CORNELLSCOTT.ORG     

Cornell Scott-Hill Health Corporation (CS-HHC) has partnered with your child's school district to operate the school based health center (SBHC) inside the school.

CS-HHC SBHCs are health clinics that bring preventive and same day care, as well as counseling, health education and dental care, to children and adolescents at school. All centers are staffed by a team of Cornell Scott Hill Health Center licensed professionals, including a medical provider (Nurse Practitioner or Physician Assistant), a clinical social worker, and a medical assistant.

We encourage all students to enroll in our CS-HHC SBHCs as they are extensions of the school nurse, and work in collaboration with your child's primary care provider. The CS-HHC SBHC is open during school hours so that students and parents do not need to miss school or work to obtain medical, mental health or dental treatment.

Cornell Scott Hill Health Center is proud to offer high quality, comprehensive care to all patients and is excited to partner with you and your child throughout their healthcare journey.

Let us help your child adopt a healthy lifestyle.
