

With over 36 years of experience, CaTECH Systems is Canada's largest non-union network infrastructure partner, with operations across Canada and a growing presence in the United States. Privately owned, we operate 10 offices and 32 service centres across North America. We specialize in end-to-end solutions across the following areas:

### TECHNOLOGY SERVICES

Certified expertise in Cisco, HP, Aruba. WiFi design, surveys, installation, and managed IT services.

### DATA CENTRES

Planning, migration, relocation, installation, decommissioning, and support including AI data centres.

### DIGITAL AUDIO VISUAL

Complete design and build for Meeting rooms, Digital Signage, and Av solutions using Microsoft Teams Rooms, Cisco, Crestron, Biamp, and more.

### INFRASTRUCTURE SERVICES

Structured cabling, cabinets, racking, wire management, cable trays, and conduit installation.

### SECURITY SERVICES

Video surveillance, access control, intercom systems, and digital recording solutions.

### ELECTRICAL SERVICES

Electrical installation, decommissioning, conduit panels, and UPS systems.

### SUPPORT SERVICES

24/7/365 multilingual Canadian support. Same-day service available.

### ROLLOUTS

Multi-site rollouts in North America, project management, installation, site inventory, and documentation.
