Clogged Gutters? We're the Solution!

LeafSolution
XTREME™
GUTTER GUARD

Leaf Solution Xtreme gutter guards prevent gutters from clogging with leaves and debris to make sure they function properly. This prevents stagnant water, a breeding area for insects, and the accumulation of highly flammable dry pine needles in drought conditions and areas prone to forest fires.

Blocks virtually everything from entering and clogging gutters, while providing free flow of rainwater or melting snow.

Also available in black

Assembled using a proprietary hemming process (2), secures the surgical-grade stainless-steel micro-mesh and assembled using a proprietary hemming process (1 and 3) to eliminate sagging, providing years of uncompromised use.

Stainless-steel mesh, optimally-sized, and a substrate material are hemmed into a heavy-duty aluminum body to keep Xtreme gutter guards tight and eliminate sagging. Easily installed on all types of roofs and made to uncompromising standards, Xtreme has a 20-year warranty. Installations are finished with a complete variety of miters and caps for ends and downspouts.

Protects Gutters from

- Leaves
- Pine Needles
- Shingle Debris
- Oak Tassels
- Asphalt Grit
- Rodents
- Nests
- Stagnant Water
- Roof Granules
- Pollen
- AND MORE

HANDLES UP TO 60 GALLONS OF WATER PER MINUTE

Product Availability

- For 5", 6", or 7" Gutters
- Colors: Mill or Black
- Fascia or Under-Shingle Mount Installation
- Packaging: 5' Lengths (20 panels/box)

Leaf Solution Xtreme gutter guards can be mounted to the fascia or under the shingle.

LeafSolution MITERS

FEATURES

- Enlarges open area in the miter by 40% to handle increased water volumes in those areas
- (inside, straight and inside bay only- outside bay and outside miter are flush with front of gutter)
- Constructed from sturdy .024" aluminum and stainless steel mesh construction
- Eliminates the need for valley shields or diverters that act as a debris trap
- Screws directly to the fascia and front lip of gutter to create strength and stability
- Integrated screen reinforcements eliminate screen deformation under load
- Use of the miters eliminates the need to cut compound miters on the Leaf Solution product
- Low profile design in height creates an unobtrusive appearance

Miters are also available with Hi Flow mesh that has larger openings, handling heavier volumes of water.

Clogged Gutters? We're the Solution.

MITERS

The Solution

to problem areas that need additional protection from high volumes of water.

LeafSolution.com

LeafSolution MITERS

Our intelligent miters are constructed of sturdy aluminum and surgical grade stainless steel micro-mesh. These miters solve water problems by enlarging the open area by 40% to allow more water into the gutter in trouble spots. Our solution will speed up system installation in the field and complete the Leaf Solution system which validates the warranty. Available in 5 designs.
