

RIZONSHINE

10-28-3

NEW HORIZON
AG SOLUTIONS

**Power up early energy. Drive stronger roots.
Fuel reproductive success.**

RizonShine is a high-phosphorus product engineered to deliver quicker emergence and build the foundation for season-long performance. With elevated phosphorus paired with sulfur and a strong dose of chelated zinc, RizonShine encourages higher energy production including vigorous root expansion and reliable nutrient movement throughout the plant, leading to better standability, improved stress tolerance, and stronger reproductive development.

Nutrient Features:

- NPK
- Sulfur
- EDTA Chelated Zinc

- ✓ Rapid energy for vigorous early plant growth
- ✓ High phosphorus to fuel root development and nutrient transfer
- ✓ Chelated zinc for enzyme activity and reproductive success
- ✓ Sulfur to support nutrient conversion and protein formation
- ✓ Improves standability, crop finish, and harvest consistency

Available in 275 gallon totes and bulk.

Directions for use:

Soil Application: 2X2, or at sidedress.

This product can be mixed with 28% or 32% UAN and ATS.

Use in accordance with the recommendation of a qualified institution or individual.
