NEIGHBORHOOD MEDICAL

"HEALTHCARE THAT MEETS YOU WHERE YOU ARE"

COMMUNITY HEALTH EDUCATION

We offer health workshops at local sites. Like Libraries, Senior Centers, and Living Community Centers.. Our goal is to equip individuals with practical tools for healthier living.

BREAKING THE STIGMA

Through our "Breaking The Stigma" program, we train community leaders to recognize mental health concerns. Participants learn how to respond to individuals in crisis with care and confidence.

FAITH–BASED OUTREACH CONSULTATION

We support churches in growing their health outreach efforts. Our guidance helps build sustainable, community-focused programs.

HEALTH SCREENINGS

We provide accessible screenings that promote prevention and early detection.

Our Services

We serve communities through partnerships with churches and faith-based organizations, providing health education, mental health crisis response training, and outreach support services. By mobilizing volunteer-driven programs and meeting people where they are physically and mentally, we help organizations expand their impact while building stronger community trust.

Additional Services

Caring Neighbor Program

A volunteer program connecting individuals with non-medical support. We serve those recovering from illness, recent hospital discharge, or elderly community members.

Support May Include:

- Companionship and Check-Ins
- Walking or Light Activities
- Help With simple tasks (plants, pets, etc.)
- Emotional and Spiritual Support.

WHAT THE COMMUNITY PARTICIPANTS SAY

Health Fair

"New Life Missionary Baptist Church's first Health and Wellness Fair in Liberty City was a huge success and exceeded my expectations thanks to the partnership with Neighborhood Medical. - Rev. Jason Glasford, Co-Pastor.

Workshop

"While caring for her son after a stroke, she had neglected her own health. After our workshop, she left empowered, informed, and ready to care for both."
