Discussion Questions

1. Do you know the history of why the world is the way it is today? When did it start going so crazy and when did we drift from absolute truth to relative truth?
2. Why do you suppose that people in the world today like the idea of relative truth so much? Will my truth or your truth lead to salvation?
3. We are finding that science and psychology are both looked at as subjective (relative truth) in our culture. Many people carry that over the Bible as well. What do you believe about the truth of scripture?
