

CLASS DESCRIPTION

Owner's Club:

Owner's Club is held the first Thursday of each month, excluding July and December. This is a free educational opportunity without your machine. We share a sewing technique, go over classes for the month, and give away some door prizes. We also have "Show and Tell", so don't forget to bring you latest project/s with you to brag about your work!

Sew Level 1:

This class is geared toward new machine owner's who have purchased a machine from Derrel's. This class will teach you basic maintenance, buttons and knobs, threading, bobbin winding, and additional features on your machine. You will learn several techniques such as overcast, blind hem, buttonholes, decorative stitching, and more.

Sew Level 2:

In this class, we dive more into different features and techniques with your new machine. Each class focuses on one specific technique or feature. For instance, combining decorative stitches, hemming, ruffling, etc.

Embroidery Level 1:

This is a beginning embroidery class, where we go over topics such as hooping and stabilizing, marking items, basic editing on your machine and transferring designs.

Embroidery Level 2:

This class will focus on different embroidery techniques such as applique, free standing lace, in the hoop projects, T-shirts and onesies.

Freemotion/Bernina Stitch Regulator (BSR):

An intermediate quilting class that teaches sewers how to finish their quilted project on their machine by free motion quilting, with or without a stitch regulator.

Ruler Work:

This class will teach you how to finish your quilts using rulers on your domestic machine.

All Day Quilting:

You are welcome to come to Derrel's to use our facility during a time frame from 10:00am to 4:00pm. This is offered only one day a month, please check our calendar for specific dates. There is no class fee if you purchase your pattern and fabric kit from Derrel's. If not, then there is a \$50 charge for the time you are at our facility.

Sergers:

This instruction is offered on a one-on-one basis only, with your purchase of a machine from Derrel's, and by appointment only. If you have another machine that was NOT purchased at Derrel's, it would be in your best interests to contact the party that you purchased your machine from to get your questions answered.

**NOTE: If you purchase any machine from Derrel's, your machine operating lessons are free of charge for 5 years, for the ORIGINAL owner.*

Embrilliance:

This is a software program that covers the basics of the Embrilliance embroidery machine software. You **MUST** have the software prior to the class. If Embrilliance is purchased from Derrel's, the introductory session is absolutely free. If purchased elsewhere, the lesson charge will be \$50. **NOTE: If you schedule a session, it is very important to bring a mouse for your computer to use during the session.*
