*Did you know that the #1 cause of teen deaths in Minnesota—and in the US—is traffic crashes?*  
And 50 percent of those fatalities were teen passengers! The “Impact Teen Drivers” program provides evidence-based education to stop these crashes. The program focuses on preventing reckless and distracted driving, speeding and impaired driving – while promoting being a responsible driver and passenger. Please join us for this **FREE**, fun and interactive training to help us reach more high school students across the state with this important traffic safety education.
