First Responder Sonar Training

You're invited to attend a **FREE** training event to improve your knowledge and ability in Side Scan Sonar Imaging.

September 18-19

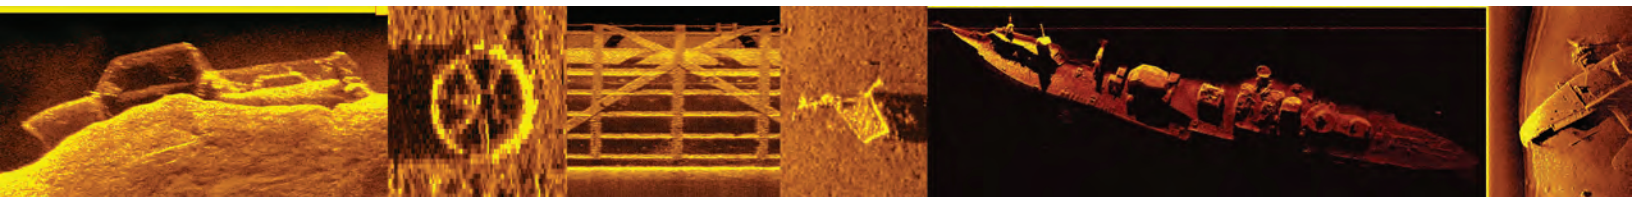

9am-4pm

**200 Paul Bunyan Drive South #2
Bemidji, MN 56601**

Marine Sonic Technology, in conjunction with Christian Aid Ministries, is providing a **FREE** training event in your region to expand the knowledge of Side Scan Sonar and underwater imaging techniques for towed and hull mounted sonar systems.

Training Topics:

- What is Side Scan Sonar
- Terminology
- The Acoustic Collection Process
- What Types of Sonar are Available
- The 4 Key Rules to Good Imaging
- Frequency, Range, and Depth Selection
- NaDir, What it is and what it does
- How Images are created
- Frequency and its reaction with objects
- Image Interpretation
- Principles of Vertical imaging
- Search patterns and techniques
- Target marking, Identification, & Collection
