

CLEAN HANDS CARE FOR ALL

Wash your hands often to
stay healthy and stop germs.

WASH YOUR HANDS THE RIGHT WAY

WET

Use clean, running
water.

SOAP

Apply soap.

SCRUB

Scrub all parts of your
hands for 20 seconds.

CLEAN

Don't forget your palms,
backs, between fingers,
and under nails.

RINSE

Rinse well under
clean, running water.

DRY

Dry with a clean towel
or air dryer.

Clean hands help protect our patients,
our team, and our community.
