

## HOWARD PARK COMMUNITY CENTER

1380 Parker Ave. West Palm Beach, FL. 33401

EXTERIOR VIEW – FROM PARKER AVE.

### DESCRIPTION:

The Howard Park Community Center project will provide a new, welcoming community facility designed to meet the growing and changing needs of the community it serves. The new center will provide flexible spaces for recreation, programs, gatherings, and community activities, creating opportunities for residents of all ages to connect, participate, and enjoy the park. It will include a welcoming lobby, 3 multipurpose rooms, staff areas, restrooms, café, and a commercial kitchen. As part of the overall design, portions of the existing community center will be repurposed as an open-air pavilion, preserving elements of the existing facility while giving them a renewed purpose within the new community center and park environment. The new single-story facility will feature generous shading canopies and a strong connection to the surrounding landscape and natural elements. The project is intended to create a durable, accessible, and inviting community destination that strengthens the connection between the center, the park, and the people it serves.
