Coming Soon: A New BHN Client Portal

A safe and secure way to stay connected with your care.

BHN is launching a new Client Portal that will give you convenient, secure access to information and tools related to your care, from your computer or mobile device.

The BHN Client Portal is an official, secure BHN resource. You can feel confident creating an account, signing in, and securely saving your information.

With the new portal, you'll be able to:

- View upcoming and past appointments
- Complete and sign forms electronically
- Join telehealth appointments
- View messages and documents
- Manage certain notification preferences
- Future Feature: View balances and make payments *(Not available at launch)*

How will I get started?

When the new Client Portal is available, you'll receive an email from BHN with instructions to set up your account, download the app and sign in securely.

No action is needed yet. Watch for an email from BHN when the portal is ready. If you have questions, please ask your clinician.
