### **June 23                    Hubbard Glacier Scenic Cruising**

The largest tidewater glacier in North America, **Hubbard Glacier** measures 70 miles long and plunges 1200 feet into the depths of the bay. Its immense beauty and phenomenal blue hues are enchanting even from afar. But it's when your cruise ship draws closer that its towering surface really impresses, dwarfing even the uppermost deck on your ship at a whopping 40 stories high. There, with the snowcapped mountains serving as a glorious backdrop, you'll have a prime viewing spot from which to witness the glacier calving as it often expels icebergs the size of 10-story buildings – imagine the splash! The area around Hubbard Glacier is also renowned for its wildlife, where whales, harbor seals and otters swim, brown bears, moose and black-tailed deer roam ashore, and a wide variety of seabirds soar gracefully across the sky.

### **June 24                    Icy Strait Point**

This is wild Alaska. **Icy Strait Point** has the highest concentration of wild bears anywhere in the world. Coastal brown bears are often sighted and makes for an exciting day excursion in the area. Take a ride on the Ziplider and fly down the mountain at speeds of up to 60mph. Want to see a magnificent humpback whale? Spend a few hours on the Whale & Marine Mammals Cruise. Learn about the island's native Tlingit people.

**June 25                  Juneau**

Called America's most scenic state capital, **Juneau** is surrounded by intercoastal waterways, lush rain forests, rugged mountainsides and awe-inspiring, accessible glaciers. The Mendenhall Glacier, an arm of the 1500-square mile Juneau Icefield, is one of the few glaciers in Alaska you can reach by car. This area is abundant with humpback whales. Here you may wish to take an excursion to pan for gold, enjoy a salmon bake at Gold Creek or experience a whale watch.

**June 26                  Skagway**

This **"Gateway to the Klondike"** saw countless fortune-seekers pass through during the heyday of Alaska's Gold Rush. Today, you can still feel like a prospector among the rustic boardwalks with frontier storefronts. One of the most popular excursions is the "Scenic Railway of the World" which is a vintage train tour from Tidewater to White Pass Summit with spectacular scenery. Experience a railroad, still operational after 126 years, built against all odds through some of the North's most rugged terrain. Ride in a comfortable vintage railcar through two tunnels, over sky-high trestles and remote valleys. See the original Klondike Trail of '98 worn into the rocks, a permanent tribute to the thousands of souls who passed this way in search of fortune.

**June 27                  Ketchikan (Ship Docks at Ward Cove)**

Known as "Alaska's First City", Ketchikan was founded as a fishing camp and is built on steep hillsides. Explore downtown attractions including historic Creek Street. Get an introduction to the indigenous people of the area visiting the Totem Heritage Center, Totem Bight State Park or Saxman Native Village. Not to be missed is an excursion to the Misty Fjords National Monument which is only accessible by boat or float plane. This 2.3 million acre wilderness area features saltwater fjords with 3000 foot cliffs carved out by glaciers over thousands of years. Porpoise, mountain goats and black bear sightings are common.

**June 28                  Cruise the Inside Passage**
