To Whom it May Concern,

REFERENCE LETTER: STAHL CRANES & HOISTS (PTY) Ltd

This letter serves to confirm that Stahl Cranes & Hoists (PTY) Ltd. performed work for Congo Equipment SARL in Lubumbashi based in the DRC Katanga Province.

The project itself entailed design, manufacture, delivery, installation and commissioning of a variety of overhead cranes, tackle, rail solutions, tools and ancillary products. The scope included numerous challenges with solutions in the manner in which equipment was designed in order to package and transport via road several thousand kilometers over rough terrain.

Stahl Cranes & Hoists (PTY) Ltd. carried out the scope of work under demanding circumstances always meeting with new solutions and favorable outcomes including cost savings and reduced timelines.

Stahl's attitude toward challenges has most certainly proven their ability to strive in obtaining the best solution and produce a Turnkey solution to lifting and materials handling. Stahl is highly successful and make an extra effort towards their customers.

I would most certainly recommend Stahl for any project in terms of capability, quality, professionalism, documentation control, safety and value for money.

Yours Faithfully,

Christopher Savage
Luano Project Manager
Congo Equipment SARL
