Location

Hyatt Regency New Brunswick

2 Albany St, New Brunswick, NJ 08901

Overall Goals

This two-day course will update participants about cutting edge management of gastrointestinal diseases. During the conference, we will discuss optimal options between endoscopic & surgical management in the

Learning Objectives

- Identify advances in therapeutic endoscopic procedures for the management early gastrointestinal cancers
- Discuss the management of pancreatic disorders and pancreaticobiliary cancer
- Recognize advances in therapeutic endoscopic ultrasound and third space endoscopy including artificial intelligence
- Define updates in the diagnosis and management of complex diseases of the GI tract using novel devices
- Identify updates in endoscopic management of obesity and Endobariatric techniques
- Define updates in Endoscopic Surgery and Endo-Hepatology
- Describe advances in advanced endoscopy procedures and its implication for the patients
- Hands-on training on 9 advanced endoscopy stations, and taught by expert faculty

Target Audience: Gastroenterologists, Surgeons, Nurses, Associates, Researchers
