

MINI MUFFIN MAN

INFORMATION & CARE GUIDE

ABOUT

The Mini Muffin Man is all the rage we hear, that's why we provide multiple mascots so he can be in more places than one at any given time. Volunteer must be at least 5'2" to wear. No one over 5'5" is recommended. His head is ventilated with a built-in fan and helmet for ease of wear and no strain on the neck.

CLEANING

Once the volunteer inside of the Mini Muffin Man is finished, please spray the inside of his head with a 25% water and 75% rubbing alcohol solution. If you do not have this, please let us know when returning. We will handle a deep cleaning as well as spot treatments upon his return.

DO NOT spray with Febreze or other scented odor removal.

DO NOT use heat on the costume.

DO NOT spray the outside of his head and face with the rubbing alcohol and water solution.

ATTIRE

Dress comfy in leggings and a white short sleeve shirt underneath the mascot costume.

SHOES

We suggest running shoes inside of the mascot's feet.

PRO TIP

To stay cool, wear a cooling vest. We suggest 30-45 minutes at a time.

STORING & RETURNING

Please make sure to keep the Mini Muffin Man's head and body separate from each other. This includes his bakery jacket and pants. How he arrives should be how he is stored until use. Please make sure to return him the same way he arrived.
