# JOHN & LINDA LYCHE CLUB UPDATE

## BIG STEPS FORWARD

### BUILDING GREAT FUTURES IN ONALASKA

We are thrilled to share that the Boys & Girls Club is big steps in expanding our services to the Onalaska community! The construction of the new John & Linda Lyche Club, housed within the Onalaska Middle School, is well underway. With the generous support of our donors and the support of the School District of Onalaska, we are creating a space where members will experience wrap around support.

Together, we are laying the foundation for a brighter future, and we can't wait to see the positive impact this club will have on kids! Check out the remodel update video, photos of the new spaces and current programming happening at the Lyche Club.

## SCHOOL SUPPORT & ENRICHMENT

With the help of our full-time Education Specialist, we're already forming strong relationships with students and faculty before our Club space is complete. For the past two years, our Education Specialist, Michelle Brey, has supported the school day by assisting in classrooms, lunch periods, and study halls.

We have also partnered with the school to use available spaces for after-school enrichment and tutoring, giving students a supportive place to learn and grow beyond the classroom. These early efforts are helping us build a presence in the community and lay the groundwork for future success of our program.

Members have been putting the finished spaces to to great use!
