(In the period 1754-1812 there were 151 marriages solemnised at St Helen's Parish Church, North Thoresby. This is approximately 2.6 marriages per annum)

NORTH THORESBY, Lincolnshire

This is a combined transcript copy of three separate Marriage Registers (all blank books) covering some banns and marriages for the period 1754-1812. The registers involved are "No 3, 1753-1763 and 1788-1790", "No 4 1761-1786" and "No 5 1783-1812". As can be seen there is some overlapping of dates and though most of the marriages are consecutive there are some out of sequence entries which appear to have been recorded in a random manner. Where these occur they have been relocated in their correct chronological place with a note showing their actual location. At the beginning of register "No 5" baptisms and burials for the year 1783 have also been recorded, but they are a duplication of those in the General Register ("No 2") for the period 1726-1812, which see.

This transcription is not an exact copy of the original. The entries have been simplified, but without altering any spelling, to facilitate the transcription. Any abbreviations of names (ie Thos, Robt, Elizth etc) are those as they were recorded in the registers.

Modern abbreviations used:

(b) = ba(t)chelor or single man

(sp) = spinster, or single woman

botp = both of this parish (ie of North Thoresby)

otp = of this parish (ie North Thoresby)
