Marriages 1837-1933

Transcripts of the Parish Registers have come into our hands from research undertaken by members of the Grimsby Family History Society, Doreen Tyson and Tom Wood. These are invaluable resources for our village history and copies are lodged in the Village History Archive and are available for group and individual research projects.

Transcript of the Marriage Register 1837-1982

For the purposes of this modern transcript a standard presentation has been adopted which differs from the entries as they were originally recorded.

All name spellings are those as recorded, though illegible or unclear names are followed by a question mark in brackets (?) to indicate a degree of uncertainty. All first name abbreviations are those as recorded.

Throughout this transcript the following abbreviations have been used :-

ba = bachelor
sp = spinster
wid = widow, or widower
fa = full age (ie over 21)
Wits: = Witnesses
NT = North Thoresby

A series of dashes (--) indicates that a section of the register has not been completed. In the early years many brides had no recognised occupations and this is where the dashes are most frequently used. Also in the early years it was not uncommon to omit the name of the father and his occupation.

Every effort has been made to ensure there are no errors or omissions, but this cannot be guaranteed.

This transcript was compiled by Tom Wood of North Thoresby on behalf of the Society for Lincolnshire History and Archaeology (Great Grimsby Family History Group) with the kind permission of the Reverend Bob Emm.
