ONLINE SUBSTANCE ABUSE PROGRAM - 60 HOURS

CORE COMPONENT (26 HOURS)

PSYH 505

FOUND. OF CHEMICAL DEPENDENCY TREATMENT

I Introduction to the foundations of the alcohol and drug abuse rehabilitation field. Emphasis on the roles and responsibilities of the addictions counselor. Focus is on the first six of the twelve core functions: screening, intake, orientation, assessment, treatment planning, and basic counseling skills. Interactive work is stressed.

PSYH 506

FOUND. OF CHEMICAL DEPENDENCY TREATMENT

II Introduction to the foundations of the alcohol and drug abuse rehabilitation field. Emphasis on the roles and responsibilities of the addictions counselor. Focus is on the last six of the twelve core functions: case management, crisis intervention, client education, referral, reports and recordkeeping, and consultation with other professionals in regard to client treatment and services. Interactive work is stressed.

PSYH 510

PSYCHOLOGY OF ADDICTION

Major emphasis on factors determining the development of addictions, including physiological, emotional, cognitive, and behavioral dimensions of the addictive process. Also emphasizes intervention and treatment strategies for the various types of chemical dependency and substance abuse.

PSYH 513

RECOVERY AND RELAPSE

This course is designed to address the diverse issues that are related to the recovery from addiction as an ongoing process involving physical, psychological, social, intellectual, spiritual and cultural aspects of the individual. Major themes of the course include the passages of recovery, relapse prevention principles, relapse warning signs, and the twelve-step approach to recovery. Using a holistic perspective, students will gain insight into basic recovery principles as they are related to the process and prevention of relapse.

PSYH 524

BIOLOGICAL SYSTEMS OF CHEMICAL DEPENDENCY

Exploration of the physiological effects of chemical use on human biological systems and human development. Emphasizes identification and management of chemically induced crises situations, including issues in co-morbidity and prevention.

PSYH 655

MULTICULTURAL & DIVERSITY ISSUES

This course provides the opportunity for counselors and clinicians to strengthen their multicultural awareness, knowledge, and skills in the competencies necessary to effectively evaluate and treat culturally and ethnically diverse clients. Students will be able to develop an awareness of the prevalent beliefs and attitudes of different cultures, and to develop skills useful for appropriate interactions with diverse individuals. In the course of these studies, it is hoped that students will also become more aware of their own cultural values and biases as they study prevalent beliefs and attitudes of different cultures and diverse groups.

PSYH 688

PRACTICUM IN COUNSELING & PSYCHOTHERAPY

Students will be provided with supervised experience in an approved placement. The course involves intensely supervised practice of professional counseling at a field site in the community. For this practicum experience, students provide a variety of individual, group, marriage, couple, and family counseling direct service activities to field-based clients. Students are required to complete a minimum of 100 hours of counseling-related services, 40 of which must include direct client contact activities. Report writing required.

PSYH 690

PRACTICUM INTERNSHIP

This course requires completion of a supervised internship for students in the Counseling Psychology program. These courses are taken over two consecutive semesters, with two registrations (PSYH 690 and PSYH 691). These courses are intended to provide students with a comprehensive work experience of a professional counselor.

FOUNDATION COURSES

25 credit hours from 500-600 level coursework in the field of psychology

ELECTIVES

9 credit hours from 500-600 level coursework in the field of psychology
