Corporate Purpose

Meaningful Design
to Inspire People’s Lives

Meaningful

We strive to live in harmony and responsibility with nature and the environment in which we live. To practice a philosophy of life that is coherent and reasonable.

Design

We live and create spaces with character, pleasant homes and environments for healthy living.

to Inspire

We inspire and get inspired to create beautiful and functional designs that come to life.

People’s

People are at the heart of our business and we aim to improve their lives and contribute to their well-being.

Lives

There is only one life and it can be lived in many different ways. That is why our products are designed to adapt to and anticipate the real needs of society.

We are Cosentino

Certifications

Cosentino has an unwavering commitment and respect for the environment and demonstrates this through responsible resource management, guaranteeing a commitment to innovation and continuous improvement of our processes, products, and services on a global scale.

Sustainability

At Cosentino, we approach sustainability as a collective commitment that stems from the individual involvement of those that are a part of Cosentino.

Our continuous improvement efforts involve constant analysis of our entire value chain - from the acquisition of raw materials to the delivery of the final product to consumers.

We are firmly aligned with the United Nations' 2030 Agenda. As a global leader in the manufacturing and distribution of innovative surfaces from our headquarters in Almeria, Spain, we are committed to driving the path towards local and global sustainability.

→ Olive trees in the Cosentino industrial park

→ LED lighting throughout the Cosentino industrial park

→ Photovoltaic installations at Cosentino

Energy

Energy efficiency and the use of renewable energy sources are the two core elements of our strategy to minimize the impact of our activities.

100% of our energy consumption comes from renewable energy sources, and we aspire to reach 30% energy self-consumption in the coming years.

On the other hand, the constant improvement of our processes and machinery allows us to reach a high level of energy efficiency, which translates into an 8% decrease of our electrical consumption in our production processes.

Water

Since our inception, we have valued the importance and understood the challenges of proper water management.

It has motivated us to implement a sustainable use policy maximizing the efficient use of water resources in the different production processes.

We use cutting-edge technology to achieve 99% recycled water in all our processes in the Cosentino Industrial Park.

In addition, we use 100% of the surplus water to irrigate green areas.

Materials

We are committed to making the most of the materials we work with throughout the value chain.

In recent years we embarked on an ambitious R&D project called “Circularity” to reuse the materials from which our products are made.

Another action is the innovative Hybriq+® technology that brings about the new generation of Silestone. Hybriq+® incorporates a minimum of 20% recycled materials and is manufactured with 100% renewable energy and 99% recycled water.

Carbon neutrality: Sustainable design

Cosentino Group is deeply committed to sustainable development in the company's growth strategy, prioritizing respect and protection of the environment.

We calculate our carbon footprint

It is an external body that verifies the calculation and the results of the carbon footprint that is submitted to the Spanish Ministry for Ecological Transition and Demographic Challenge (MITECO, in Spanish), which is responsible for approving and registering our footprint, becoming part of the **'Spanish registry of carbon footprint, offsetting and carbon dioxide absorption projects'** of the Spanish Climate Change Office (OECC, in Spanish), whose results are made public as an exercise in transparency.

This calculation uses energy and/or fuel consumption data, as well as raw material consumption data collected from all **Group subsidiaries** (Centres, Workshops, Cities, HUBs, HQ, etc.) with a view to offset these emissions.

We address aspects related to the efficient use of natural resources, proper waste management, atmospheric emissions, discharges and other potential impacts in order to make sustainable use of natural resources and protect biodiversity and ecosystems.

At Cosentino we are strongly committed to the 2030 Agenda promoted by the United Nations and the Local Action Plan promoted by the Spanish Government.

We reduce our impact

We are committed to energy efficiency, emissions reduction and sustainable mobility to minimize our impact.

- **Energy efficiency:** it is a priority for Cosentino to reduce energy consumption in the production process and in the general group activity, which is why we have managed to obtain 100% of the electricity we use from renewable sources.
- **Emission reduction:** 2.8 million euros have been invested in the implementation of an energy management and monitoring system for the heat systems, which allows heat from the Dekton furnaces to be recovered and used in the dryers, thus reducing emissions.
- **Sustainable mobility:** we have recently joined the 'Plan Sumamos Salud + Economía' under which we have a Mobility Policy that helped us to avoid 230 TCO₂ in 2018.

As a demonstration of our commitment, we have managed to offset the 42,532 tons of CO₂ emissions resulting from one year of Dekton production, thus obtaining the Zero Carbon Footprint label for the entire product life cycle in 2019 for all Dekton products.

In addition, the Sunlit Days series by Silestone is the brand's first collection to achieve the carbon neutral certification.

We offset our emissions

To achieve carbon neutrality in Dekton, at Cosentino **we offset our emissions over the entire product life cycle** (scopes 1+2+3) by investing in GHG emission reduction projects.

For this purpose, we identify those projects that meet the requirements for responsible offsetting and that, in turn, have a strong social dimension that contribute to the achievement of the **Sustainable Development Goals of the UN's 2030 Agenda**.

The project selected to offset the 42,532 tons of CO₂ emissions, resulting from one year of Dekton production, has a direct impact on sustainable development by **supporting the local economy, providing training and job opportunities**.

Dekton

Innovative design

Dekton is a sophisticated blend of over 20 minerals extracted from nature. Its production process is the result of years of research, development, and innovation in the manufacturing of glass, state-of-the-art porcelain and quartz surfaces.

Electron microscopy makes it possible to appreciate the reduced porosity of the material, a consequence of the sintering and ultracompaction process exclusive to Dekton. This reduced porosity and the absence of micro-defects causing stresses or weak points are the distinguishing features of Dekton.

DEKTON®

DEKTON®
Designed by COSENTINO

→ Countertop and flooring Dekton VK03 Grigio

→ Kitchen island, countertop and cladding Dekton TK05 Sabbia / Kitchen island and countertop Dekton VK04 Grafite

Sintered Particle Technology

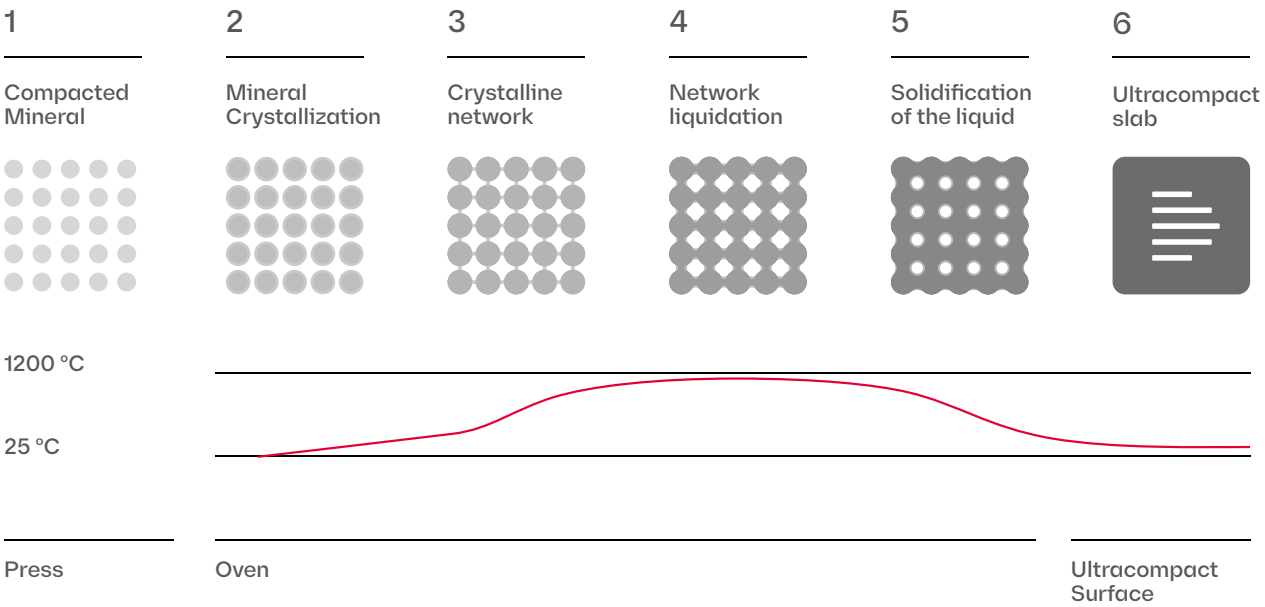

Dekton uses an exclusive SPT in its manufacturing, capable of sintering mineral particles, bonding them together and compacting their internal structure. This innovative technological process mimics and accelerates the processes that natural stone undergoes when exposed to high pressures and temperatures for millennia.

Dekton emulates in a few hours what nature takes millennia to do, thanks to the exclusive SPT technology.

- The furnace has a length of 180 meters.
- Temperatures reach approximately 1250°C.
- Total processing time depends on the thickness of the slab (about 4 hours).

Safety in facades and cladding

In order to reinforce safety in ventilated facades and interior cladding, there is the possibility of adhering a safety mesh behind the Dekton slab, specially developed to prevent falls due to breakage. Safety is one of Cosentino's main concerns.

Dekton Product features

Dekton has all the technical specifications required in a high resistance surface to materialize any interior and exterior residential or commercial design project.

Low water absorption

Dekton's water absorption is negligible so it does not undergo any expansion movement due to it.

Highly resistant to ultraviolet (UV) light

Dekton is highly resistant to UV light and will not fade or degrade over time in any kind of outdoor application.

Superior mechanical resistance

Dekton's variety of thicknesses allow it to be used in applications where resistance to wind or impact are a project requirement.

Fireproof material

Dekton can withstand high temperatures without burning, scorching or cracking. European Standard EN 13501 and ASTM E84 testing classifies Dekton as a noncombustible material.

Color durability

Dekton's control of pigmentation and decoration in the manufacturing process provides better color consistency from one slab to another, resulting in a long lasting product that will not fade over time.

Scratch resistant

Dekton is one of the most scratch resistant surfaces on the market today. It has a rating of seven (7/10) on the Mohs scale for mineral hardness.

Dimensional stability

Dekton expansion is minimal so it can be installed with thin joints between panels. These joints will keep their width in all conditions.

Resistance to freezing and thawing

Dekton's resistance to durability tests in freezing and thawing situations and its application in various weather conditions prove its high performance.

Abrasion resistant

Dekton is even more resistant to abrasion than granite and porcelain, making it the ideal surface for facades or high-traffic flooring in commercial applications.

Maximum fire and heat resistance

Dekton has been successfully installed on facades in areas exposed to high temperatures.

Easy cleaning and low maintenance

Most graffiti can be removed from Dekton with standard cleaning products. Maintenance costs are reduced.

Stain resistant

Dekton is resistant to stains from a variety of sources so they can easily be removed without altering the surface's finish.

Dekton Slim

DEKTON® SLIM
Designed by COSENTINO

High aesthetic value and performance in vertical cladding and furnishings.

Minimum Thickness of 4 mm → Large Format & Performance

01 → Large format and minimum number of joints

Its large format of up to 320 x 144 cm covers large surfaces, minimizing the number of joints and therefore, dirt.

02 → Easy Installation

Having such a light format, but with so many possibilities, simplifies everything. Its thin thickness allows for quick cutting and on-site adjustments with ceramic tile tools.

03 → Design without limits

Dekton Slim is very easy to work with and can be cut to size. It adapts to all spaces.

04 → Maximum resistance to humidity

Dekton Slim is the ideal ultra moisture and stain resistant coating for bathrooms. A high performance product that requires no more maintenance than a simple damp cloth.

Dekton Formats

Adaptable and versatile.
In any space.

Dekton offers a variety of standard sizes, custom sizes and thicknesses to meet the functional and creative needs of the designer in any interior or exterior project, no matter how complex.

Dekton Textures

Different Sensations.
Richness of Shades.

Dekton comes in different textures so that the only limit is the imagination: from the ultra-glossy finish, to matte or velvet textured options.

Large format

Optimma Format → 260 x 100 cm
Large format Slab → 320 x 144 cm

Other formats

Thicknesses

- 4 mm
- 8 mm
- 12 mm
- 20 mm
- 30 mm

XGloss

A luminous and dazzling finish achieved by mechanical polishing, without the need for enamels or other materials.

Matte

The matte texture pursues a natural, shine-free appearance, ideal for achieving a harmonious and timeless finish. Most Dekton products are manufactured with this finish.

Velvet

The materials chosen in Velvet create a feeling of warmth and comfort. This texture is perfect in classic colors with veins.

Matte or Textured Velvet

Matte or Textured Velvet textures combine the warmth of velvet with the roughness of a textured, imperfect material. It is ideal for emulating a realistic finish, with the advanced features of Dekton.

Optimma

New optimized Dekton format

The ultimate interior cladding solution

The Dekton slab has been optimized with its most common applications in mind to create a new format with improved cost, design, installation and handling. Introducing our first Optimma family format specifically for cladding:

Optimma format :
260 x 100 cm x 4 mm.

260 x 100 cm in 4 mm thickness

The slabs are created in 4mm thickness, which gives it a lightness that allows easy handling, and in case of need, it can be easily cut to adapt the product to all spaces.

Cost Efficiency

The sizes are optimized to the most common cladding standards, allowing us to avoid waste, which in turn reduces price.

Design with Purpose

The slab has been created to take advantage of its total height, which makes it much easier to cut it for cladding.

Easy to Install

The product is smaller and lighter, which makes it easier to use, transport and handle. Cutting can be done with simple tools. The edges are already bevelled and the piece is always meshed.

Design Match

The design has been conceived to place the boards vertically to create a continuous design.

Rainfloor

Shower floor

Solution according to the different design trends in the shower area. Combine Dekton with any evacuation system available on the market: grilles in steel, ABS or covered with Dekton itself. An elegant and quality product to give a touch of distinction to the bathroom.

Dekton Grip+
Length from 71 to 159 cm
Width from 71 to 142 cm

Dekton Design Match

There are designs that leave their mark. Veins that run along walls and continue on floors and facades with patterns that would be impossible for a natural stone, but not for Dekton.

Lineal Match

We present a new concept that includes references of the same colour to create a fluid and continuous atmosphere. Focused on large-area flooring and vertical cladding applications.

A new design conceived to position the slabs vertically. The slab is rotates 180° in each of its iterations, thus creating a continuous and harmonious design.

Dekton Somnia
Available in 4, 8, 12 mm and Optimma format 260 x 100 cm x 4 mm

Dekton Trance
Available in 4, 8 and 12 mm thicknesses

Dekton Marina [NEW](#)
Available in Optimma format 260 x 100 cm x 4 mm (LM1, LM2 and LM3)

Book Match

Based on some of our designs, we have created unique, symmetrical and interchangeable references that allow compositions and designs to be made where the veins have continuity between different pieces.

Each piece has a unique combination of numbers and letters to select the patterns that best suit your needs according to colour and available thicknesses.

Material on request, check availability.

Dekton Awake
Available in 4, 8 and 12 mm thicknesses.

Dekton Lucid and Morpheus
Available in 8, 12 mm and Optimma format 260 x 100 cm x 4 mm

New Collection

Pietra Edition

Designed by
Daniel Germani

Once again, the ultra-compact Dekton surface is here to decode the most iconic natural stones thanks to its exclusive technology.

With an innovative, modern and avant-garde approach, Dekton pays homage to the timeless elegance of Mediterranean natural stones while enhancing their design, characteristics and sensory perception.

→ Kitchen island Dekton Adia / Flooring Dekton Sandik / Cladding Dekton Ava

Timeless elegance with a Mediterranean soul

Trevi

With a cream background crisscrossed by a parallel pattern of unique veins in shades of gray and blue, this color is inspired by the classic beauty of Roman silver travertine. A classic stone that influenced the Eternal City's architecture today infuses personality to interior design and architecture with contemporary lines.

Ava

We have drawn on the distinctive, multi-form structure of the Italian stone Ceppo di Gré to create an innovative finish in shades of cream never before seen in nature. A warm design, particularly suitable for large flooring and cladding applications, both indoors and out.

Sandik

The traditional elegance of Spanish Crema Marfil marble with a smooth finish, creamy backdrop, and subtle hints of gray. A perfect color for minimalist designs with a warm touch, suitable for use in all types of projects, from interiors to floors and facades.

Adia

A versatile color with a silky finish inspired by Italian Piasentina stone, which dynamically recreates a subtle brown marbling and light white veining over a soft cream canvas.

→ Flooring Dekton Sandik / Facade and firepit Dekton Ava

Nebu

This color's hyper-realistic design perfectly recreates the depth of Roman travertine's infamous porous structure, but with a non-porous finish that brings strength and beautiful irregularities to add timeless singularity to any design

Polar

A reinterpretation of the visual richness of Campaspero stone and its perfect imperfections. Its realistic patterns combine an irregular beige canvas intercepted by gray and cream veins and subtle fossil inlays. The beauty of classic limestone recoded with the strength of Dekton.

Silestone

The first low-silica surface

Silestone is a low-silica mineral hybrid surface composed of premium minerals and recycled materials, powered by the revolutionary Hybriq+ technology.

Silestone advantages

Silestone is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use, including furniture. In addition, it offers an unlimited range of colors and textures.

Silestone has many advantages, including minimal maintenance, high resistance to stains and scratches, and extremely low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone the ideal solution for places where liquids and humidity are present. Silestone is resistant and allows for prolonged enjoyment over time, beyond what is expected.

Silestone's properties are the result of constant years of innovation that guarantee maximum hygiene and safety.

Acid and Scratch Resistant

Silestone has a high level of resistance to scratch and scuff, as well as to external aggressions and acids common in daily kitchen use.

Impact Resistant

Silestone's high impact resistance allows the handling of hard objects (pots, pans, trays, etc.) with total peace of mind.

Stain Resistance

Silestone is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

Silestone Formats

Infinite possibilities for indoor applications.

Silestone is available in slabs of up to 327 x 159 cm and in 30 x 30 cm, 40 x 40 cm, 60 x 60 cm, 60 x 30 cm and 60 x 40 cm tiles. They are marketed in thicknesses of 12, 20 and 30 mm. In addition, different pieces can be combined to simulate thicker edges.

Silestone Textures

Surface sensory perception.

In order to adapt to all styles, Silestone offers different textures for any of its applications. Polished, Suede or Volcano are three possibilities that make the imagination soar and bring to life countertops, floors or walls with the desired texture.

Large format

Jumbo Slab → 327 x 159 cm
Standard Slab → 306 x 140 cm

Floor formats

- 30 x 30 cm
- 40 x 40 cm
- 60 x 60 cm
- 60 x 30 cm
- 60 x 40 cm
- Custom Size

Thicknesses

- 12 mm
- 20 mm
- 30 mm
- Custom thicknesses adding different pieces

Polished

Extreme shine, a smooth surface to the touch and a uniform, intense and consistent color.

Suede

Extra matte finish, offers a flat, non-rugged surface, which conveys a unique experience to the touch for its beauty and fineness.

Volcano

Rustic texture, rough to the touch, but soft at the same time, an attractive and pleasant to the touch surface

Jumbo Slabs

Cosentino offers Silestone slabs in Jumbo format (327 x 159 cms max.).This format allows for the creation of large surfaces with minimal jointing, design versatility, and better hygiene. This way, the slabs’ use is optimized and waste minimized.

Edges

Customized cutting and polishing processes can be used for Silestone, creating edges of all types. This section details some of the most popular ones, but the possibilities are limitless.

INNOVATION RUNS IN OUR VEINS

MINERAL HYBRIQ SURFACES

THE FIRST LOW-SILICA SURFACE. HYBRIQ+ TECHNOLOGY Q10

Our exclusive Hybriq+ technology enables the creation of surfaces with a maximum 10% of crystalline silica content, while maintaining high performance and excellent finishes.

MAX. 10%

MINERAL ON THE INSIDE. PREMIUM MATTER SELECTION

A carefully selected range of premium minerals chosen for their attributes and capabilities, gives Silestone XM its nuances, shine, color, depth and resistance.

MINERAL

SILESTONE XM IS THE DESIGN MINERAL SURFACE MADE OF PREMIUM MINERALS WITH LOW CRYSTALLINE SILICA CONTENT AND RECYCLED MATERIALS

Unique and personalized spaces, full of colors and depth in perfect balance where quality is paramount. Transform your home into an oasis of elegance that endures over time.

Ongoing conversion to Q10 starting in 2024.
Always look slab back side and edge label.

UNIQUE PATTERNS & DESIGNS

Elevate spaces with elegance and sophistication, creating unique environments.

REAL FULL BODY

Integrated veined design across the entire surface & thickness enabling finishes on edges and recesses with full continuity.

NATURAL STONE TOUCH & FEEL

An authentic look and feel that recreates the texture, depth, and warmth of natural stone, but with greater resistance and practicality.

MINERAL COMPOSITION

High performance, low maintenance and resistance to impacts and thermal shock by recently used pans, with a maximum of 10% crystalline silica.

SUSTAINABLE INNOVATION

Crafted with our exclusive Hybriq+® technology, utilizing a minimum of 20% recycled materials, such as glass, in the surface's composition.

VERSATILITY IN INTERIOR SPACES

Its design and double-sided polishing makes it versatile for interior applications in kitchen, bath, and furniture, such as countertops, cladding, washbasins, trays and tables.

THE FIRST LOW-SILICA SURFACE

Our Hybriq+ technology drastically reduces the content of crystalline silica until 10% thanks to an exclusive combination of premium minerals and recycled materials, such as glass.

SUMA

Color Series

Let your space exude calmness and serenity with high-performance low-crystalline silica colors.

The colors of Silestone's new high-performance low-crystalline silica series are inspired by four elegant cream-white base stones with subtle veins.

In a world of constant overstimulation, let your home become an oasis of peace and relaxation through simple design and sleek, bright surfaces.

SUMA COLOR SERIES

Discover a new color series for residential and construction projects.

silestone®

MINERAL LOW SILICA SURFACES

→ Kitchen island, countertop and cladding Silestone Linen Cream

Experience the essential

Siberian

A reinterpretation of classic Calacatta marble with a pattern of warm river-like grey veining.

Persian White

Inspired by the simplicity of its namesake, Persian White has a mixture of uniform cream veins and an organic dynamic structure. A versatile white suitable for any space craving luminosity and warmth.

→ Kitchen island, countertop and cladding Silestone Siberian

→ Kitchen island, countertop and cladding Silestone Linen Cream

Motion Grey

This color reinterprets a grey limestone with a warm finish unique to the Silestone palette. The subtle two-tone background has a granite structure that provides texture to a design marked by veins of warm tones distributed throughout the surface.

Linen Cream

Inspired by the neutral and cream tones of limestone, Linen Cream plays with a rich, yet subtle, pattern of uniform veins in a two-tone play in the beige range.

→ Bathroom countertop Silestone Linen Cream

New Collection

Le Chic Bohème

The essence of Parisian sophistication and bohemian flair comes to life in Le Chic Bohème.

A new collection where elegance and freedom reign supreme. Le Chic Bohème is the echo of inspiration of the City of Lights.

silestone^{XM}

LE CHIC BOHÈME

COLLECTION

Le Chic Bohème by Silestone XM merges the beauty of natural veined stone with the technological innovation of Silestone XM, using the exclusive Hybriq® technology to create a high-performance low-silica mineral hybrid surface with outstanding beauty and the look and elegance of natural stone.

The four new color structures of Le Chic Bohème awaken the imagination with their unique shades, elegant veining, and nuanced patterns, marrying depth and sophistication to celebrate individuality and a passion for authenticity.

Journey into a radiant landscape where art and style intertwine.

JARDIN EMERALD

Nature’s symphony captured in hues of green, evoking the beauty of Parisian gardens on a sunny day.

Thanks to a sophisticated pattern of golden veins with metallic accents and black and cream color notes, Jardin Emerald reinvents the natural beauty of the most exclusive green marbles, creating a versatile finish with great graphic depth.

BLANC ÉLYSÉE

The timeless elegance of Paris is captured in this classic design, where warm and cool tones create a chic yet unexpected proposal, accented by gold, copper, and gray veining.

A delicate lattice of golden, gray, and copper veins along with graphic depth runs through a bright cream background that updates the timeless elegance of classic Parisian palaces.

→ Countertop and cladding Silestone XM Château Brown

→ Countertop and cladding Silestone XM Jardin Emerald

CHÂTEAU BROWN

This shade embraces wisps of copper pink and bronze veining that intertwine to create a one-of-a-kind composition eliciting a connection to the earth with an elevated sophistication.

A subtle marble look over an elegant dark brown background is filled with light and reflections of metallic pink-copper and bronze veining. A daring composition that connects with earthy tones and on-trend design.

RIVIÈRE ROSE

Transport yourself to the sun-kissed shores of the French Riviera with this warm white canvas adorned by blush pink and taupe veins.

An relentless sea of taupe and blush pink veins give personality to a warm white background. Rivière Rose pays homage to the whimsical patterns of ocean waves as they break on the coast of the French Riviera.

EARTHIC[®]

BY SILESTONE XM

X FORMAFANTASMA

Earthic is not just a product,
it is a Cosentino research
project on materials
and sustainability in
collaboration with the iconic
studio Formafantasma.

Earthic is a sustainable surface with a maximum of 10% silica, created with an innovative composition and complex production process, that is the result of years of R&D. It utilizes a selection of premium minerals, recycled glass, PET, bioresin, and Dekton fragments to reduce the extraction of raw materials, limiting soil erosion and CO₂ emissions. Additionally, it's manufactured with 99% recycled water and 100% certified renewable electric energy.

Earthic incorporates up to 30% recycled components into its eco-conscious surfaces.

EARTHIC X FORMAFANTASMA

Formafantasma is a research-based design studio investigating the ecological, historical, political and social forces shaping the design discipline today.

Cosentino has partnered with design visionaries, Formafantasma, to craft a new collection that explores innovative and sustainable material sources.

Formafantasma brings forward a new approach to surface design.

Earthic is more than just a surface

FFFROM

DESIGNED BY
FORMAFANTASMA .

A collection that reflects the material's origin and sourcing as well as the process of transforming recycled materials into something new.

FFFROM 01

A gray surface speckled with white recycled PET fragments creating a subtle yet intricate pattern that draws the eye and adds depth to its composition.

FFROM 02

A darker tone of gray elegantly punctuated with white accents, creating a visually attractive contrast. A shade of gray with a sense of modernity and minimalism.

FFROM 03

A mesmerizing yet elegant and antracite background with recycled PET scales scattered across the surface resembles the night sky or a geological specimen.

→ Kitchen island, countertop, cladding and table Silestone XM FFROM 03

RAW

DESIGNED BY
COSENTINO STUDIO.

Patterns and colors that capture the material essence in its most authentic state, combined with shapes that express a new aesthetic.

→ Silestone XM RAW G

RAW A

A color endowed with a soft dark veined pattern over a white background that reveals an intricate design evoking a sense of natural elegance, reminiscent of refined stones found in nature.

→ Kitchen island, countertop and cladding Silestone XM RAW A

RAW D

A dark natural rock backdrop provides a mood of tranquility and solid elegance. Diffused streaks of bronze weaves through a charcoal landscape.

RAW G

A serene and natural concrete canvas with subtle copper touches intertwined with nebulous veins that add a sense of fluidity.

Sensa

by Cosentino

Protected Natural Stone

Sensa by Cosentino is premium maintenance-free natural stone brought to you by Cosentino, a world leader in the natural stone industry.

Sensa by Cosentino is treated with a revolutionary stain protection treatment called SenGuard, and comes with a 15-year warranty.

SENSA
15
YEARS
WARRANTY

SENSA
by COSENTINO®

→ Kitchen island, countertop and cladding: Sensa Platino

Applications

Sensa kitchen countertops.
Natural, stain-resistant beauty.

Enjoy the design, hardness and resistance of natural stone without fear of stains. Sensa by Cosentino quartzites and granites feature a revolutionary stain-resistant treatment that protects them for the life cycle of your countertops.

Textures

Unique patterns for
irreplicable surfaces.

The colors and textures of Sensa by Cosentino have the patient and whimsical design of nature. Each of the seven available shades has a texture that produces different effects and sensations: suede, polished or caresse.

Sensa by Cosentino Treatment

The long-lasting, chemically-integrating technology allows the material to breathe. This technology enhances its powerful properties.

The process alters the surface tension of the stone causing the material itself to prevent liquids such as water, coffee or oil from penetrating.

Scalea

by Cosentino

From the Earth

We have selected the most premium natural stones from the best producer of all time: Earth.

Advantages Scalea

Scalea is Cosentino's collection made up of natural stones, chosen through an exhaustive selection process. This collection of natural stones is inspired by the origins of the Cosentino Group, as a brand that has worked with noble materials such as marble, granite, limestones and travertines. Its extraordinary resistance and durability, together with whimsical and unrepeatable designs, make Natural Stone a safe bet for the professional.

- More than 100 materials in the portfolio.
- Technical sheets and Declaration of Performance upon request.
- Stocks locally in our own Centers.

FURNITURE

Rediscover the exclusivity of custom-designed furniture for every space.

Living rooms

The living room is transformed into a personal and timeless space with Cosentino surfaces; an expression of sophistication and functionality.

Live your space

Rediscover your home’s living space

An integrated solution with maximum versatility and functionality. Endless personalization possibilities.

Limitless customization

Designing a living room with high aesthetic value requires versatile surfaces in a variety of colors, textures, and unique chromatic pantones, such as Dekton, which will cover floors, furnitures, cladding, and more, to create an integrated and differential interior design experience.

Perfect for high-traffic areas

Dekton is an innovative surface with a high level of resistance, capable of withstanding high temperatures, ultraviolet rays and any scratches. It remains unalterable to wear and abrasion, as a result of the high daily traffic in spaces such as living rooms.

Easy installation

Dekton is offered in a Slim format which is light, easy to cut, and adaptable to every space. Its thin thickness of 4mm allows adjustments to be made during installation, using tools for ceramic tiles.

Comprehensive solutions

The same material for flooring, cladding and furniture creates visual continuity and high aesthetic impact, unifying spaces and increasing their functionality.

New Dekton Optimma Format

Dekton has been optimized for interior cladding. The Optimma format (260 x 100 cm x 4 mm) allows for cost efficiencies, more design possibilities and easy installation and manipulation. The results: impactful cladding and integrated spaces.

Large format, minimal joints

Dekton Slim’s large format up to 320 x 144 cm and thickness of 4 mm allows you to cover large surfaces creating a continuous and homogeneous aesthetic for cladding and furniture. This size reduces the number of joints, easing cleaning and maintenance.

Cosentino Bathrooms

Cosentino helps you to rediscover your bathroom space through a unique and integrated design concept.

Bathroom Spaces

Reimagine the most personal space in the home. Create a unique experience in which the most beautiful and functional Cosentino surfaces create unique, warm, and exclusive spaces.

From wall and floor claddings in different yet perfectly balanced formats, colors and textures, to attractive vanities and shower trays, carefully designed with great attention to detail and simplicity.

Solutions of great aesthetic and functional value to suit every requirement and style of bathroom, which redefine the way in which we experience such a personal space and feeling of well-being.

Large format

Large format, minimal joints. Tailor-made floors and wall cladding.

Bathrooms are exposed to constant activity. Using a high-quality surface for floors and cladding reduces joints and guarantees hygiene and cleanliness. The strategically placed slabs in XXL make the room look bigger, creating the sensation of a larger bathroom.

Shower Trays

Shower trays with Dekton Grip+: exclusive and integrated designs in the bathroom with limitless customization possibilities.

Cosentino offers an extensive collection of shower trays in the material the architect or designer chooses and adaptable to any space. It is an interesting alternative to the traditional shower that simplifies installation and assembly.

Optimma Format

Dekton Optimma Format. Optimized for interior bathroom cladding: taking full advantage of the space, easy installation, and design continuity in a vertical format.

The Optimma slab format is available in 260 x 100 cm and 4 mm thicknesses, and is able to meet any vertical cladding need to create a continuous design, taking advantage of the full height with easy installation and minimum waste.

Total Integration

Total aesthetic integration and visual continuity. The same material for your entire bathroom: floor, cladding, shower tray, and washbasin.

A single surface applied to every component of the bathroom allows for complete esthetic homogeneity, creating harmony, balance, and amplitude.

Colors and textures

New collections of innovative, on-trend colors and textures, to create bathroom spaces full of originality and impact.

Innovative Silestone and Dekton surfaces possess a wide variety of solid and veined colors, unique chromatic pantones, and sensory textures to rediscover bathroom spaces.

Cosentino Exterior Spaces

Beautifully continuous
and durable
outdoor spaces.

Redesign your
outdoor spaces to
include porches and
terraces that blend
in with your home.

Exterior Spaces

Customization without limits

Open spaces with freedom for inspiring, designing with a unique purpose: personalizing your outdoor spaces.

Easy installation

Dekton is very lightweight, easy-to-cut and adaptable format.

High transit resistance

It remains unalterable faced with daily erosion and abrasion in outdoors spaces, used in terraces, stairs and pool surroundings.

Dekton Outdoor Countertops

Dekton outdoor countertops are resistant and durable. Innovative surfaces turn into functional and beautiful countertops.

Cosentino Kitchens

Reinventing the
kitchen to make it
the heart of the home.

Kitchen Spaces

It's been a long time since the kitchen was a forgotten room in the darkest part of the house. The kitchen is now a key space that can integrate with the living-dining room and share the same design.

Integration within the space

The kitchen as a living space which connects to the rest of the house. Total integration of the worktop with the living room cladding or floor.

Kitchen countertop and island

Thousands of households all over the world have trusted Cosentino to provide them with a kitchen that is not only functional and beautiful, but also plays a key role in the daily lives of their families. We offer a wide range of colors and textures, so you're sure to find your perfect countertop.

Kitchen flooring and cladding

In this so-called “reconversion” process, the island plays a major role, as it serves as a connecting element between the two environments as well as a meeting place in the home. In this project, the interior designer built the entire design around the island.

Furniture

Surfaces integrated with
unique and timeless
furniture design.

**Dekton,
The skin of the furniture**

It's on-trend to use the same cladding on the kitchen or bathroom countertop to clad drawers and wardrobes. This allows you to achieve continuous and clean surfaces where joints disappear, creating a monolithic effect.

This decor trend is only possible with the technological evolution of materials. 8 mm and 12 mm thicknesses are ideal for tables and coffee tables. Dekton Slim 4mm thickness allows kitchen and bathroom furniture cladding, and also answers the creative restlessness of the designer: table tops for the interior and exterior completely personalized and exclusive.

Furniture

Unprecedented durability and design.

Cosentino surfaces redefine furniture thanks to their versatility, durability, and beauty.

→ Kitchen furniture cladding Dekton Slim Opera

Dekton Slim has all the advantages and properties of Dekton, including high resistance to scratches and stains.

Dekton Slim, 4 mm thickness makes it an incredibly easy material to work with. Its light weight and properties make it the ideal solution to clad all types of furniture and adapt to any aesthetic proposal: in white and gold, in black and chrome...

Ideal for cladding closet doors and kitchens

Dekton Slim Zenith and Dekton Slim Opera were the two tones chosen to hide these drawers under the stairs and on kitchen cabinetry. The result is a camouflaged surface of this practical storage solution, without compromising the aesthetic of the space.

→ Kitchen furniture cladding Dekton Slim Kreta

Cabinets integrated into the island

Dekton Slim is the perfect solution to clad drawers in the kitchen island, achieving a monolithic effect.

For this industrial project, the designer chose Dekton Trilium: a finish inspired by volcanic rock with a touch of oxidation, which adds great character to the space.

Once again, Slim's 4 mm thickness allows the creation of an island totally integrated with drawers.

→ Kitchen furniture cladding Dekton Slim Trilium

→ Table top Silestone XM Versailles Ivory

**Ideal for
work spaces**

The properties of Dekton and Silestone make these materials the perfect choice for work spaces. With their endless possibilities in terms of finishes and designs, they add a deco touch to these spaces and create attractive and functional tables suitable to work from home.
