

CLIENT BILL OF RIGHTS

Homeownership is a significant milestone that merits applause and requires professionalism when undertaking any work on your property. We firmly believe that the effort and investment you put into your home should shine for all to see. At Azul Painting, enhancing your valued investment goes beyond mere labor—it's an honor. We will maintain rigorous standards of excellence and service as we take as much pride in our workmanship as you do in your home.

As homeowners ourselves, we champion these fundamental entitlements.

01 CLIENT-FIRST

We'll prioritize your needs and treat you as a valued client from the initial interaction, regardless of whether you decide to use our services or not.

02 OWNERSHIP

You hold authority within your own home. Therefore, we'll only come inside when invited and remain for as long as our presence is appreciated.

03 SAFETY

You have the right to feel secure. Hence, we will exclusively dispatch individuals of high moral standing and honesty to your residence. They will conduct themselves with courtesy, dressed professionally, and treat you with the esteem that every homeowner rightly deserves.

04 COMMITMENT

Recognizing the value of your home, we commit to dedicating the necessary time to ensure everything is done correctly. There will be no corners cut, starting from our initial meeting through to the completion of your project.

04 RESPECT

Out of respect for every homeowner, we will never proceed with a project unless all owners and pertinent parties are present. This ensures that everyone is fully briefed on our services and understands what to anticipate.
